PRESS RELEASE

20210215-PRESS RELEASE Mr G. H. Schorel-Hlavka O.W.B. ISSUE – TGA, vaccinations, DNA & the Rule of LAW-Supplement- 3

As a **CONSTITUTIONALIST** my concern is the true meaning and application of the constitution.

* Gerrit, what is your view about the *Pfiser* vaccinations arriving and being rolled out next Monday?

*****INSPECTOR-RIKATI®**, firstly let us consider what **Brianne Barker**, a virologist at Drew University in New Jersey made clear about vaccinations.

<https://www.livescience.com/covid-19-vaccine-efficacy-explained.html>
COVID-19 vaccines: What does 95% efficacy actually mean? | Live ...

Brianne Barker, a virologist at Drew University in New Jersey

QUOTE

And none of the three vaccine trials looked at all for asymptomatic COVID-19. **"All these efficacy numbers are protection from having symptoms, not protection from being infected,"** Barker said.

END QUOTE

And **"not protection from being infected"** seems to come out in reality that those so called "vaccines" are not at all protecting individuals against the virus at all but merely may provide **"protection from having symptoms"**. Then again, as set out below one also can die because of the complications that may result from being vaccinated.

I used to be in **"Quality Control"** and actually even so saying it myself was extremely good in it, as I wrote about in the past. Even after several promotions and in management of factories the company made clear I didn't need someone else to do **"Quality Control"** as I could do so myself knowing it all. That is in a way the worst position in that I needed to get out production but had to make sure that it all was appropriately subjected to my own **"Quality Control"** rather than mere flimsy production. On the other hand it earned me the reputation of being extremely good in providing the right product and so sales increased as result.

Let us now consider the **TGA** which is to approve medical supplies such as "vaccines". If they arrived on 15 February 2021 then there is no way in the world that the **TGA** possibly could approve the vaccines to be available for next Monday. With other words, in my view it will be a scam approval that lacks any proper **"Quality Control"**.

https://childrenshealthdefense.org/defender/doctor-dies-second-dose-covid-vaccine/?utm_source=salsa&eType=EmailBlastContent&eId=e6b37aec-89c0-44b5-be90-d2376c84bfc36-Year-Old Doctor Dies After Second Dose of COVID Vaccine • Children's Health Defense

36-Year-Old Doctor Dies After Second Dose of COVID Vaccine

News reports attributed Dr. Barton Williams' death to multisystem inflammatory syndrome (MIS-A) caused by asymptomatic COVID, though he never tested positive for the virus.

QUOTE

The Centers for Disease Control and Prevention (CDC) is [investigating the death](#) of a 36-year-old doctor in Tennessee who died Feb. 8, [about a month after receiving the second dose](#) of a [COVID vaccination](#). According to news reports, Dr. Barton Williams died from the adult form of [multisystem inflammatory syndrome](#) (MIS-A), a condition caused when the immune system attacks the body resulting in multi-system organ failure. MIS-A is considered [extremely rare](#).

The [Daily Memphian](#) and other news sources reported that those involved in the investigation believe Williams developed MIS-A in response to an asymptomatic case of [COVID-19](#), not the vaccine.

Dr. Stephen Threlkeld, an infectious disease specialist who treated Williams and is working with the CDC to investigate the death, told a [Memphis ABC News affiliate](#) that Williams tested negative for COVID while in the hospital and that Williams had told him that to his knowledge, he had not the virus.

However, Threlkeld said testing revealed “two types of antibodies in [Williams’] system — one type of antibody that results from a natural COVID infection, and a second type of antibody from the vaccine.”

END QUOTE

If even after one month having received a second dose nevertheless it can so to say kill an otherwise healthy young doctor then obviously it means that any “**Quality Control**” must be concentrating upon how any vaccine may possibly harm any individual. In particular where as I wrote about a year ago the “**race**” of a person can be vital to becoming a “victim” of any virus then it is in my view totally irresponsible for the TGA without any appropriate testing to approve any vaccine. As such, in my view the TGA should first ensure that in Australia selective testing is done considering the racial background of individuals. For example, it may very well be that Aboriginals may easily succumb to the vaccination. Meaning that any testing involving Aboriginals must be done under very strict supervision with appropriate medical facilities on standby so if something goes wrong then immediately the appropriate facilities are available to avoid a loss of life. Likewise with other groups who by their racial background may be far more vulnerable than others.

Whatever testing may have been done in some other country I view should not be dictating the TGA this as I made clear in my “[20210215-PRESS RELEASE Mr G. H. Schorel-Hlavka O.W.B. ISSUE – TGA, vaccinations, DNA & the Rule of LAW-Supplement- 2](#)” article there has been in my view a lack of proper testing.

GENOCIDE? As I suspected, an estimated 115,000 Australian seniors could die from the clash of antigens, etc, after vaccination. Let it be very clear that Moderna testing of the vaccine “purposefully excluded individuals with comorbidities or vulnerabilities” and yet the vaccine is specifically used and prioritise those. “The [Moderna vaccine trials](#) included no individuals over 80 years old and only [20 individuals over 70](#). ” Neither the CDC, FDA or the Australian TGA could even for emergency approve this so called vaccine for use for those “individuals with comorbidities or vulnerabilities” in those circumstances. It is simply a sickening game of MASS MURDER. “Is it possible that a particularly reactogenic vaccine (like Moderna’s) could even kill more people than the disease against which it purportedly promises immunity?”.

This document can be downloaded from:

<https://www.scribd.com/document/494465280/20210214-PRESS-RELEASE-Mr-G-H-Schorel-Hlavka-O-W-B-ISSUE-TGA-Vaccinations-DNA-the-Rule-of-LAW-Suppl-2>

In my view, even if there is a single death resulting from the vaccination then those of the TGA should be charged with manslaughter for having blatantly disregarded proper “**Quality Control**” procedures to establish the safety of any vaccine to be approved. There can be no excuse as to possible Government pressure to approve vaccines without proper testing. The onus and the legal responsibility lies with the TGA to properly apply “**Quality Control**” and this means to ensure that any vaccine is justified to be used concerning the Australian diverse population.

In my view, it would at the very least take months to do the testing of the diverse groups of Australians and as such, I for one cannot accept that the TGA is in any position to approve any vaccine in mere months. When there is a time lapse between the first and the second vaccination and even then after 4 weeks this young doctor still died from complications then you look at several months at the very least for the TGA to appropriately evaluate the safety, if there is any, of any vaccine.

As I previously wrote about, that the FDA (USA) in my view skipped proper “Quality Control” and went ahead approving vaccines that has resulted to numerous deaths already.

BY [ZACHARY STIEBER](#) February 11, 2021 Updated: February 11, 2021

Federal officials are investigating after some [COVID-19 vaccine recipients](#) have developed the rare blood disorder thrombocytopenia, with at least several cases resulting in death.

The Food and Drug Administration (FDA) is investigating and assessing the reported cases, an agency spokesperson told [The Epoch Times](#) via email.

“At this time, we have not found a causal relationship,” the spokesperson said. “We will update the public as we learn more about these events.”

The blood disorder was listed by the FDA last year as a possible adverse event outcome from getting a COVID-19 vaccine, alongside other serious adverse events such as Guillain-Barré syndrome and death. Several dozen case reports of post-vaccination thrombocytopenia have been submitted to the [Vaccine](#) Adverse Event Reporting System (VAERS), a passive reporting system managed by the FDA and the Centers for Disease Control and Prevention. Approximately 44.7 million doses of COVID-19 vaccines have been administered in the United States as of Feb. 10.

In one case, a 56-year-old male in Florida, who was injected with [Pfizer](#)’s vaccine, was rushed to the hospital several days later, after noticing “small blood tinged spots.” He was diagnosed with thrombocytopenia.

[Authorities Probe Rare Blood Disorder Among Some COVID-19 Vaccine Recipients \(theepochtimes.com\)](#)

QUOTE

“However, based on the rapid onset, severity, and the similar time course of thrombocytopenia in several other patients within the same time period, exposed to the same vaccine and all being men, which is unusual for immune thrombocytopenia, I think that a very strong argument can be made to the extent that, until proven otherwise, the association [with the vaccine] has to be considered real, as opposed to coincidental,” Spivak told [The Epoch Times](#) via email.

Tulips Moran 2/12/2021 at 12:23 PM–

Back in February 2020 when a medical research paper was published by five Indians who after examining the virus isolated 5 snippets that were inserted into the SARS virus. I recall of the 5 snippets two were HIV, and one modified-Hepatitis strain. There was another pneumonia related. It was clear in their paper that the CCP virus was designed to weaken the immune, impact blood cells and focus on deep lung tissues. Within a couple days the paper was removed from publication and over the course of the next 4-5 months three of the researchers died in violent accidents. So when I heard early on folks who received Pfizer vaccine were diagnosed with with Epstein-Barr virus (EBV) or hepatitis C. While these diagnoses may be predated the vaccination, but they are all platlett reducing viruses. Coincidence?

Deaths of Elderly Who Recovered From COVID-19, but Died After Vaccine, Raise Questions

QUOTE

[Sharyl Attkisson](#) CONTRIBUTOR February 10, 2021 Updated: February 11, 2021

Two small clusters of deaths after [COVID-19](#) vaccination have been reported among nursing homes in Kentucky and Arkansas.

In Kentucky, **four seniors died the same day of their vaccination** on Dec. 30, 2020. Three of the four who passed away reportedly already had had coronavirus prior to getting vaccinated.

In Arkansas, four seniors died at a long term care facility about a week after their vaccination. All tested positive for COVID-19 after vaccination.

The deaths are reported in a federal database called VAERS, the [Vaccine](#) Adverse Event Reporting System. Deaths after vaccination don't necessarily mean the vaccine is to blame. Of those receiving coronavirus vaccines, many are elderly and frail, or already suffering from serious illnesses. That makes it difficult to know whether there's a connection.

Kentucky Nursing Home Deaths

According to VAERS reports, the Kentucky deaths occurred on Dec. 30 after vaccinations with the Pfizer-BioNTech vaccine. An ill 88-year-old woman who was “14 + days post covid” was given the Pfizer-BioNTech shot while she was “unresponsive in [her] room.” She died within an hour and a half ([914961-1](#)). An 88-year-old who was “15 days post covid” got the shot, was monitored for 15 minutes afterward, and passed away within 90 minutes ([914994-1](#)). A third report says an 88-year-old woman who was “14 + days

post covid” vomited four minutes after receiving her shot, became short of breath, and passed away that night (915562-1). And an 85-year-old woman vaccinated at 5 p.m. was “found unresponsive” less than two hours later and died shortly after (915682-1).

END QUOTE

[Deaths of Elderly Who Recovered From COVID-19, but Died After Vaccine, Raise Questions \(theepochtimes.com\)](https://www.theepochtimes.com/deaths-of-elderly-who-recovered-from-covid-19-but-died-after-vaccine-raise-questions_3692259.html)

Deaths of Elderly Who Recovered From COVID-19, but Died After Vaccine, Raise Questions

QUOTE

The Kentucky patients were vaccinated shortly after **the CDC disseminated false information** on this point. The CDC claimed studies showed that vaccines are effective for people who have had COVID-19. The **disinformation was given on the agency’s website**, in its Morbidity and Mortality Weekly Report and in a webinar instruction to medical professionals.

What we have is real “**disinformation was given on the agency’s website**” by the CDC but if it is a Government Department or organization to ensure the killing of the elderly then well that is permissible. While those doctors/scientist exposing the truth are claimed albeit falsely to spread disinformation.

[Deaths of Elderly Who Recovered From COVID-19, but Died After Vaccine, Raise Questions \(theepochtimes.com\)](https://www.theepochtimes.com/deaths-of-elderly-who-recovered-from-covid-19-but-died-after-vaccine-raise-questions_3692259.html)

Deaths of Elderly Who Recovered From COVID-19, but Died After Vaccine, Raise Questions

QUOTE

Under pressure from Rep. Thomas Massie (R-Ky.), who first flagged the CDC’s incorrect information in December, the agency recently issued a correction but used wording that still falsely implies studies showed that the vaccines helped people previously infected with COVID-19.

Meantime, preliminary results from a study co-authored by a team of more than two dozen researchers noted that people infected with COVID-19 in the past “experience systemic side effects with a significantly higher frequency” after vaccination than others.

The CDC confirms that it’s monitoring reports that people who’ve already had COVID-19 seem to be suffering significantly more frequent or more severe reactions after vaccination, or “reactogenicity,” than those who didn’t have COVID-19.

“CDC is aware of reports of increased reactogenicity (such as fever, chills, and muscle aches) in persons who have had COVID-19,” said a spokesman.

Chinese Citizens Needing Urgent Medical Care Are Neglected During Strict Lockdown

BY [OLIVIA LI](#) February 14, 2021 Updated: February 14, 2021

On Jan. 8, several cities in northern China's [Hebei Province](#) were placed under lockdown amid a resurgence of COVID-19 cases. Then, in mid-January, local authorities in Xingtai city of Hebei Province tightened controls when confirmed cases continued to rise.

The Epoch Times obtained a series of classified documents from Xingtai municipal government revealing that many residents who were not affected by COVID-19 had struggled desperately to get treatment for heart disease, kidney failure, and tumors due to the harsh and inhumane lockdown measures that were imposed.

END QUOTE

When a specialist makes clear that it is like a **'Ticking Time Bomb'** and another makes clear **"All these efficacy numbers are protection from having symptoms, not protection from being infected,"** then I view it be grossly incompetent for the TGA to even approve any so called vaccination merely to rely upon whatever may have been approved in some other country. It in my view must do its own investigation and **"that Moderna testing of the vaccine "purposefully excluded individuals with comorbidities or vulnerabilities" and yet the vaccine is specifically used and prioritise those. "The Moderna vaccine trials included no individuals over 80 years old and only 20 individuals over 70."** then the TGA cannot approve anything, not even for **"EMERGENCY USE ONLY"** where there has no proper testing been done involving those **"individuals with comorbidities or vulnerabilities"**.

Both the Prime Minister Scott Morrison and Greg Hunt the Minister for Health I view should be charged with manslaughter if not murder if they were to go ahead with killing of individuals by using the so called "vaccinations" without proper testing. It is in my view irrelevant if the TGA were to approve the so called "vaccines" without proper consideration and investigation as their legal culpabilities do not lie with the TGA conduct but that they should be well aware that they are responsible to ensure that so called **"vaccines"** not only require to be approved but also requires to be justified and according to legal provisions, including any required legal medical procedures to be followed. In particular those who already have overcome the COVID battle hardly could be considered to be needing some EMERGENCY vaccination. As was made clear **"The Food and Drug Administration (FDA) is investigating and assessing the reported cases,"** then to hold that somehow the TGA could nevertheless in mere days do better I view is utter and sheer nonsense. And, also I may add that allegedly some "vaccines" were made in Australia in the last few months and may be mixed with others coming from overseas and with the "infected polio" vaccines we may yet again end up with horrendous consequences. Well, it is long overdue that we deal with criminal politicians who are more interested in exerting unconstitutional and unlawful powers.

* As usual, you have presented a considerable set out.

*** It is important that the readers can follow the reasoning so they each for themselves can make an "informed" decision. This in particular where the Government and others are proven to publish **"disinformation"** to scam the people with terror, etc.

We need to return to the organics and legal principles embed in of our federal constitution!

This correspondence is not intended and neither must be perceived to state all issues/details.

Awaiting your response,

Signature
