PRESS RELEASE

20210213-PRESS RELEASE Mr G. H. Schorel-Hlavka O.W.B. ISSUE – TGA, vaccinations, DNA & the Rule of LAW-Supplement-

As a **CONSTITUTIONALIST** my concern is the true meaning and application of the constitution.

* Gerrit, how did you go with the previous **PRESS RELEASE** of 10 February?

*****INSPECTOR-RIKATI®**, I did receive albeit a generic reply from Prime Minister Scott Morrison within about 12 hours but another 4 hours later I received a reply from the Department of Health that they would investigate the matter. And, if they decided this within about 4 hours that it was passed on from the PM to the department of health then I view it ought to be complimented for responding so quickly. Then again, a proper investigation may avoid many deaths, so it is very important this is appropriately considered. I now will provide this “supplement-1” which also will set out why I view so many elderly died in the past and why many around the world are dying after a so called vaccination even so pharmaceutical companies and others are trying to shift the blame to other reasons.

We must not ignore that any vaccination is for “**EMERGENCY USE ONLY**” and yet somehow it is presented as being the solution for all. Have everyone vaccinated is the mantra, with a total disregard that it is for “**EMERGENCY USE ONLY**”.

One has to be careful not to misuse the term “**EMERGENCY USE ONLY**” as it is often use by hospitals and other businesses where they have for example access or doors to leave a building that ordinary is not to be used in normal conduct. Hence, the same should be where any medication/treatment is for “**EMERGENCY USE ONLY**” then it must be strictly use in such manner. However what we have with *Pfiser/Moderna* is a “**MEDICAL TREATMENT**” that never before has been used and that has a dramatically impact on the receiver, as it even can lead to death. Where then the vaccine is given out even to those who are already in a position to have beaten the COVID then surely it cannot be claimed that the vaccination (as they call it) somehow is then used “**EMERGENCY USE ONLY**”. This gross abuse and misuse of the purported vaccination is and must be deemed totally unacceptable. Here we have Prime Minister Scott Morrison to boast about having allegedly 50 million doses secured where the population is about 26 odd million. As such, he is not harvesting this for “**EMERGENCY USE ONLY**” for Australians. Hence, he is not at all complying with the limitations of “**EMERGENCY USE ONLY**”.

In my view, the so called “vaccination” must be limited for use only if prescribed by a specialist who is medically qualified to make a proper assessment as to the individual to be vaccinated and knowing what, if any harm may eventuate.

Any general use never can be justified as for “**EMERGENCY USE ONLY**” and indeed could cause severe misunderstandings/misconceptions that “**EMERGENCY USE ONLY**” signs in hospital and elsewhere now have no strict meaning.

It ought to be clear that there are well known alternatives to combat COVID as proven when using HCQ & zinc.

We cannot have a Government blatantly disregarding the true meaning and application of the term “**EMERGENCY USE ONLY**”

As then over time anyone entering a hospital area “**EMERGENCY USE ONLY**” but for non-urgency issues can cause severe harm to others.

Neither can it be accepted that “**EMERGENCY USE ONLY**” can be misused and abused to essentially commit genocide upon the elderly and claiming it was for their own best will when in fact many may not have needed the vaccination at all had a qualified specialist been appropriately involved and assessed that a particular individual was not in any need of such vaccination. Why indeed do we need all those legal provisions and have medical qualified specialist if in the end the Minister of Health can blatantly disregard it all and ignore legal provisions? Why indeed have the provisions of the Biosecurity Act 2015 (Cth) if the Minister for health can blatantly disregard this also?

I will below quote some links to show about “**EMERGENCY USE ONLY**” signs. And, how their meaning can evaporate if the Government is ignoring its true meaning and application.

https://en.wikibooks.org/wiki/Structural_Biochemistry/DNA_recombinant_techniques/Gene_Therapy
Structural Biochemistry/DNA recombinant techniques/Gene Therapy
QUOTE

What is gene therapy?[\[edit\]](#)

Gene therapy is **an experimental technique** that uses genes to treat or prevent diseases. Genes are specific sequences of bases that encode instructions on how to make proteins. When genes are altered so that the encoded proteins are unable to carry out their normal functions, genetic disorders can result. **Gene therapy is used for correcting defective genes** responsible for disease development. Researchers may use one of several approaches for correcting faulty genes. Although gene therapy is a promising treatment which helps successfully treat and prevent various diseases including inherited disorders, some types of cancer, and certain viral infections, it is still at experimental stage. **Gene therapy is currently only being tested for the treatment of diseases that have no other cures.**

"No Medical Justification For Emergency Measures" - Open Letter From 100s Of Doctors, Health Pros Urges End To Lockdowns

<https://thefreedomarticles.com/covid-pushback-courts-cancel-executive-overreach-us-states/>
COVID Pushback: Courts Partially Cancel Executive Overreach in Several US States
QUOTE

COVID pushback is occurring as courts cancel executive overreach in many US states. But is it enough given the agenda for a 2nd wave lockdown?

COVID pushback has been happening around the world

in various forms. That is symptomatic of people seeing the truth, finding their sense of self-respect and finding the courage to stand up for their rights. Protests continue in many places, notably London (England) and Berlin (Germany) with David Icke and Robert F. Kennedy Jr. respectively giving speeches (in Icke's case several speeches at several protests) to crowds of tens of thousands of people. In other places such as Melbourne (Australia), which has strangely for a Western democracy descended into the depths of tyranny, not enough **COVID pushback** is happening; Melbournians are still hampered by severe restrictions and are even forbidden from protesting, with the Victorian State

Government classifying it as “incitement.” Australia and New Zealand are hampered by the fact they don’t possess a Bill of Rights; in my eyes that is a far more pressing concern to rectify than any other political topic; however human rights are inherent and come from within, so that need be no deterrent for Aussies to get out on the street in massive numbers to show the authorities who really has the power. Meanwhile in the US, people in many states have now taken action. Below is a brief update of the situation in some states (note: this is not a comprehensive list).

Pennsylvania Governor’s Closing of Businesses and Restrictions on Gatherings Found to Have Been Unconstitutional

A pro-freedom ruling recently emerged from Pennsylvania. Federal Judge William Stickman IV ruled that the state-imposed restrictions on gatherings violated the 1st Amendment (which includes freedom of assembly) and the stay-at-home and business-closing orders violated the 14th Amendment (which includes due process and equal protection clauses). This [article](#) reports:

“Lyndsay Kensinger, the governor’s press secretary, says the Wolf administration is disappointed and will seek a stay of the decision and file an appeal. Kensinger said the court ruling is limited to the business closure order and the stay at home orders issued in March and were later suspended, as well as the indoor and outdoor gathering limitations. “This ruling does not impact any of the other mitigation orders currently in place including, but not limited to the targeted mitigation orders announced in July, mandatory telework, mandatory mask order, worker safety order, and the building safety order,” she said.”

The judge [wrote](#):

“There is no question that this Country has faced, and will face, emergencies of every sort. But the solution to a national crisis can never be permitted to supersede the commitment to individual liberty that stands as the foundation of the American experiment.”

END QUOTE

I have extensively written that the *Commonwealth of Australia Constitution Act 1900* (UK) was also based upon the USA constitution and then 4 Amendments.

https://www.who.int/diagnostics_laboratory/eual/200110_new_eul_procedure_final.pdf?ua=1

Emergency Use Listing Procedure - WHO | World Health Organization

8 Jan 2020 ... This **definition** implies a situation ... The goal of the procedure is to **define** the steps that WHO will follow to establish ... **emergency use only**.

QUOTE

4. Eligibility of candidate products

The three product streams (vaccines, therapeutics and IVDs) each have specific requirements for products to be eligible for evaluation under the EUL procedure.

In order to qualify for assessment under this procedure, the following criteria must be met:

- • **The disease for which the product is intended is serious or immediately life threatening, has the potential of causing an outbreak, epidemic or pandemic and it is reasonable to consider the product for an EUL assessment, e.g., there are no licensed products for the indication or for a critical subpopulation (e.g., children);**
- • **Existing products have not been successful in eradicating the disease or preventing outbreaks (in the case of vaccines and medicines);**
- • The product is manufactured in compliance with current Good Manufacturing Practices (GMP) in the case of medicines and vaccines and under a functional Quality Management System (QMS) in the case of IVDs, and;
- • The applicant undertakes to complete the development of the product (validation and verification of the product in the case of IVDs) and apply for WHO prequalification once the product is licensed. For that purpose, the remaining clinical trials and other testing needed to complete the development of the product must already be underway at the time of the application for an EUL⁴.

WHO may consider reviewing a candidate product for EUL that does not meet all of the requirements. In such situations, the application letter and documentation provided to WHO should justify the application of the product although it does not meet all eligibility requirements.

END QUOTE

Therefore, **“EMERGENCY USE ONLY”** must not be deemed to exist in regard to any person already having had COVID or already battling COVID. Neither do I view that to change a person’s DNA falls within this category in particular where, as set out below, the changing of the DNA is merely to a certain strain and may not at all be against any mutation. What we now have is forcing the elderly to be **“GUINEA PIGS”** for the pharmaceutical companies without them having allegedly any legal liability. That in my view is not and never can be deemed to be **“EMERGENCY USE ONLY”**.

Vaccinating the **“HEALTHY”** never can be deemed **“EMERGENCY USE ONLY”** either. I below will set out how many having been **“HEALTHY”** have been severely harmed or even died. Again, in my view no Government can claim to ignore the Rule of Law and neither should be tolerated.

With the push for a **“VACCINATION CARD”** it must be clear that anyone who already had COVID and doesn’t need any vaccination or those who cannot have any particular vaccination then might be excluded to use public transport, a airplane or whatever regardless they have done no wrong. This is not about any safe keeping of the community but pure **“TERRORISM”** by the politicians upon its citizens. I view the Department of Health **must strongly reject and oppose** this kind of **“TERRORISM”**.

Also, if indeed as appears to be claimed on various articles and videos on the internet there is a system of proving some “payload” of drugs into any individual, merely by using a swab purportedly to test for any possible infection but really designed to “vaccinate” the individual by way of the so called **“minicomputers (nanobots) invisible to the eye on the test strips”** (*These tiny devices, known as “Theragrippers”, are made of metal and a thin layer of paraffin. They are no bigger than a speck of dust.*)

Incredible crime of the elites: The PCR test is already the vaccination!

QUOTE

- *Johns Hopkins University confirms that those who refuse to be vaccinated can be vaccinated using a PCR test.*
- *The massive PCR test campaign is actually a disguised vaccination program by the WHO using a new technology developed at Johns Hopkins University that enables clandestine vaccinations using PCR tests.*
- *In the future, PCR tests will be carried out directly on the human intestine. The reason: Tiny, star-shaped micro devices have been developed that attach themselves to the intestinal mucosa and can release “drugs” (in truth biological weapons) and nanobots into the body.*

END QUOTE

<https://mobile.twitter.com/cynthiamckinney/status/1355919082512650241?s=20>
<https://t.co/ymE3PIPoVm> / Twitter

Cynthia McKinney PhD on Twitter: "OK, so now what exactly is the function of these nanoparticles contained in the experimental Pfizer COVID-19 vaccine??"

Obviously, that such a kind of system was to be used to effectively have some “drug” payload administer to any individual without his knowledge or consent and without any medical trained and qualified specialist being involved as to ascertain if this unguarded amount of drug payload is in any way appropriate for each particular individual must be deemed a criminal offence.

What kind of “drug” is administered? Who authorized this kind of “drug” to be used? Can anyone now deployed for allegedly doing a “swab” for testing of an infection now unknowingly be used to “vaccinate” an individual? Where is the “limit” of the amount of any such “drug”?

What are the medical consequences to a person adversely affected by such “drug”? What if any kind of law/regulation is there in place to ensure such method of administering a “drug” cannot be misused? How can any “drug overdose” be prevented when there is no system in place to manage/control such kind of administering any drugs? How can any person explain to a medical doctor his ailments and drugs usage when unknowingly subjected to “drugs” that

may affect or even clash with medically prescribed “drugs”?

QUOTE Padfield v Minister of Agriculture & Fisheries and Food (1968) AC 997 (1968) 1 ALL ER 694 House of Lords - Lord Upjohn and Lord Hodson Upjohn: - (Irrelevant consideration)

Here let it be said at once, he and his advisers have obviously given a bona fide and painstaking consideration to the complaints addressed to him; the question is whether the consideration was sufficient in law.

END QUOTE

Hansard 1-3-1898 Constitution Convention Debates

QUOTE Sir JOHN DOWNER.-

I think we might, on the attempt to found this great Commonwealth, just advance one step, not beyond the substance of the legislation, but beyond the form of the legislation, of the different colonies, and say that there shall be embedded in the Constitution the righteous principle that the Ministers of the Crown and their officials shall be liable for any arbitrary act or wrong they may do, in the same way as any private person would be.

END QUOTE

Meaning, that anyone who acts for and on behalf of the Minister in violation of legal provisions can be held legally liable as there is no such excuse as “following orders” in violation of the Rule of Law. It means that where there is bodily harm or even death as result of administering any drugs without following proper legal procedures then all those involved, including those who failed to act to prevent any such conduct, in my view can be held criminally legally responsible and accountable.

[Johnson & Johnson Asks for Emergency Use Authorization of Its COVID-19 Vaccine \(ntd.com\)](#)

Johnson & Johnson Asks for Emergency Use Authorization of Its COVID-19 Vaccine

QUOTE

Overall, the single-dose vaccine was 66percent effective at preventing moderate to severe COVID-19, according to early findings from a study of 44,000 people in the U.S., Latin America and South Africa. But it was 85% protective against the most serious symptoms—and starting 28 days after their shot, researchers found no one who got the vaccine needed hospitalization or died.

[Johnson & Johnson Asks for Emergency Use Authorization of Its COVID-19 Vaccine \(ntd.com\)](#)

Johnson & Johnson Asks for Emergency Use Authorization of Its COVID-19 Vaccine

QUOTE

Other Options

In large U.S. studies, two doses of the Pfizer and Moderna vaccines proved 95 percent protective against any symptomatic COVID-19.

But those studies were finished before the record virus surges of recent months and the appearance of the worrisome mutants, meaning such testing might not turn out the same if repeated today.

J&J also is studying a two-dose version of its vaccine, but results won't be available for several more months.

QUOTE

A woman prepares to give a blood sample at a medical facility before receiving a dose of vaccine or placebo of **Johnson & Johnson's** COVID-19 vaccine clinical trial at Colina area, Santiago, Chile, on Nov. 20, 2020. (Ivan Alvarado/Reuters)

Federal authorities are investigating after some [COVID-19 vaccine](#) recipients have developed the rare blood disorder thrombocytopenia, with at least several cases resulting in death.

A Food and Drug Administration (FDA) spokesperson told The Epoch Times via email that the agency is investigating and assessing the reported cases.

“At this time, we have not found a causal relationship,” the spokesperson said. “We will update the public as we learn more about these events.”

The blood disorder was listed by the FDA last year as a possible adverse event outcome from getting a COVID-19 vaccine, alongside other serious adverse events like Guillain-Barré syndrome and death.

Several dozen case reports of post-vaccination thrombocytopenia have been submitted to the Vaccine Adverse Event Reporting System (VAERS), a passive reporting system managed by the FDA and the Centers for Disease Control and Prevention. Approximately 44.7 million doses of COVID-19 vaccines have been administered in the United States as of Feb. 10.

In one case, a 56-year-old male in Florida was injected with [Pfizer's](#) vaccine and rushed to the hospital, several days after noticing “small blood tinged spots.” He was diagnosed with thrombocytopenia.

In another, a 36-year-old Pennsylvania woman said she woke up in early January, about two weeks after getting Pfizer's vaccine, with blood blisters all over her mouth and went to the emergency room. She was admitted and diagnosed with idiopathic thrombocytopenic purpura (ITP), a version of the disorder.

The most high-profile instance involved Dr. Gregory Michael, a 56-year-old Miami doctor who died 16 days after receiving a vaccination against the [CCP \(Chinese Communist Party\) virus](#), which causes COVID-19.

Michael's wife, Heidi Neckelmann, wrote on Facebook that the doctor was admitted to the emergency room, where medical workers found his platelet count to be zero. Thrombocytopenia causes a low platelet level and in adults typically requires medical treatment.

Michael was taken to an intensive care unit with a diagnoses of acute ITP caused by a reaction to the vaccine, his wife said.

END QUOTE

What we essentially have is a political driven mantra of a deadly virus that is killing the many whereas the overall death rate reported regarding the USA doesn't at all indicate that more than 400,000 extra COVID deaths caused an increase of total yearly deaths, rather that the deaths claimed to be from COVID actually are renamed from motor cycle deaths, heart attacks, etc to COVID. It has resulted to a barrage if not avalanche of false claims about positives as to scare the living daylights out of citizens that they better are vaccinated because a doomsday is coming upon them where in fact many of the claimed death could have been avoided in the first place had appropriate conduct been pursued. As such, many of the deaths I view were in fact manslaughter if not murder incidents. This not to ignore either the misuse and abuse of equipment such as ventilators which were not properly calibrated for the use of a particular patient. Also we can for this consider the conduct such as in the USA by politicians and their officials which likewise may have eventuated in Australia:

https://www.theepochtimes.com/cuomo-aide-confesses-to-cover-up-of-nursing-home-virus-deaths-report_3694469.html

[Cuomo Aide Confesses to Cover-Up of Nursing Home Virus Deaths: Report \(theepochtimes.com\)](#)

Cuomo Aide Confesses to Cover-Up of Nursing Home Virus Deaths: Report

QUOTE

A top aide to New York Gov. [Andrew Cuomo](#) has reportedly apologized to Democratic lawmakers for withholding data on [CCP \(Chinese Communist Party\) virus](#) deaths in nursing homes in an effort to avoid scrutiny from federal prosecutors.

The admission of the alleged cover-up was made by Secretary to the Governor Melissa DeRosa during a video conference call with state Democratic leaders on Feb. 11, according to an audio recording obtained by [The New York Post](#).

It comes ahead of [new disclosure of data](#) which reveals that nearly 15,000 nursing home residents died of coronavirus, much higher than the 8,500 figure previously disclosed.

DeRosa allegedly told Democrats that the administration feared the data could “be used against us” by the Justice Department (DOJ).

The DOJ announced it had [opened an investigation](#) on Aug. 26 into “governors of states that issued orders which may have resulted in the deaths of thousands of elderly nursing home residents.”

The states include New York, New Jersey, Pennsylvania, and Michigan.

In the conference call on Thursday, DeRosa reportedly admitted that they deliberately hid the data from state legislators after the Trump administration began asking questions.

END QUOTE

Falsifying the death rate of patients never should be held acceptable. Yet, as we should be aware of the same as I understand it was eventuating in Australia where many were claimed to have died of COVID when they had not.

https://www.theepochtimes.com/cuomo-dismisses-ags-nursing-home-death-report-talk-to-the-federal-government_3677487.html

[Cuomo Dismisses AG's Nursing Home Death Report: 'Talk to the Federal Government' \(theepochtimes.com\)](https://www.theepochtimes.com/cuomo-dismisses-ags-nursing-home-death-report-talk-to-the-federal-government_3677487.html)
[Cuomo Dismisses AG's Nursing Home Death Report: 'Talk to the Federal Government'](https://www.theepochtimes.com/cuomo-dismisses-ags-nursing-home-death-report-talk-to-the-federal-government_3677487.html)

QUOTE

“Whether a person died in the hospital or died in a nursing home, it’s ... people died. People died,” Cuomo then went on to say.

“The same people are dying today. Ninety-six percent of the people who died are older people with comorbidities, which happens to be the population that lives in nursing homes,” he added. “It’s continuing today, even with all the testing we’re doing. If you look at New York state, we have a lower percentage of deaths in nursing homes than other states. One-third of all deaths in this nation are in nursing homes.”

END QUOTE

This callous kind of claim that the elderly would have died anyhow is not supported by the videos where crying nurses claimed that patients were starved to death and deliberately denied proper medical attention, etc.

Every person is born to die eventually but that should never be any excuse to deliberately allow patients to be starved to death and/or be denied appropriate medical care.

As one medical doctor of a New York Hospital in his video then already about a year ago urged to stop using inappropriately programmed ventilators as they were actually causing the death of most patients on ventilators.

https://www.theepochtimes.com/cuomo-dismisses-ags-nursing-home-death-report-talk-to-the-federal-government_3677487.html

[Cuomo Dismisses AG's Nursing Home Death Report: 'Talk to the Federal Government' \(theepochtimes.com\)](https://www.theepochtimes.com/cuomo-dismisses-ags-nursing-home-death-report-talk-to-the-federal-government_3677487.html)
[Cuomo Dismisses AG's Nursing Home Death Report: 'Talk to the Federal Government'](https://www.theepochtimes.com/cuomo-dismisses-ags-nursing-home-death-report-talk-to-the-federal-government_3677487.html)

QUOTE

Separately, former federal assistant secretary in Trump’s Human Services Department, Michael Caputo, issued a statement after Cuomo’s remarks about the previous administration’s policy to reporters. “Early on, experts at the Health and Human Services administration identified Cuomo’s foolish executive order as a primary cause for thousands of nursing home COVID deaths in New York,” Caputo said in a [statement](#).” **He’s right, I called him out on it immediately... Cuomo is personally responsible for thousands of unnecessary nursing home deaths and he must be held accountable.”**

END QUOTE

I could fill reams of paper with what went on in the USA and also in Australia but I published already numerous documents at <https://www.scribd.com/inspectorrikati> that set it all out. Save to say that this deliberate scaremongering by politicians to allow vulnerable persons to die needlessly as to build their fear mongering case where proper “leadership” in my view could have prevented most of the deaths may be forever a black page in our history. Indeed, many of the medical staff that also were suffering or even died may not have been so had proper “leadership” been in place.

In my view politicians and their officials who blatantly disregard to follow the Rule of law must be held legally accountable and if convicted be sentenced to life of imprisonment without parole. After all causing the needless deaths of the many can never be excused by some “following orders” claim.

As many videos available at the time on the internet, of many I downloaded just in case they were removed, indicated crying nurses explaining how hospital management **DELIBERATEDLY** left patients without proper medical attention and even food as they were going to die anyhow, regardless that their lives could have been saved.

The media claiming hospitals were overwhelmed where videos show hospital doing dances in about empty hospitals.

Olga as a heart failure patients has been denied proper medical care she otherwise would have been provided with and the same with myself. Just to detail those issues would fill pages.

The publication of false claims against the usage of HCQ usage in “**The Lancet**” not only is questionable but also may be deemed criminal, where this may have led to untold deaths that could have been avoided at the time and since. Moreover, it may also place in question the subsequent claimed “**EMERGENCY USE ONLY**” vaccinations where clearly there was already a manner to deal with the alleged infections. One cannot deliberately create a set of “**EMERGENCY USE ONLY**” situation by falsely creating some kind of circumstances that could have been avoided in the first place merely as to try to legally justify the approval of “**EMERGENCY USE ONLY**” so called vaccinations that otherwise never could be approved.

We must never allow officials of Departments such as the Department of Health to side with the political mantra of politicians ignoring the Rule of Law. Neither should any medical doctor betray his oath “**Hippocratic Oath**”. Allowing the untold suffering of the many who have or are being “vaccinated” via all kinds of means with drugs not in accordance to what is legally permissible should be horrifying to any official. If any official nevertheless decides to remain silent as so to say not rock the boat then such person deserves every legal punishment that could be applied in the circumstances upon conviction.

To let innocent persons suffer tremendously and even to the extent of death never must be deemed acceptable and/or be tolerates.

<https://www.youtube.com/watch?v=UijQ-6jhVuc>

Doctor Dies After Getting COVID Vaccine __ Florida Doctor's Death

Dr Hanson (@doctor.hanson) explained that Dr Michael (a person who did not smoke and was deemed to be very healthy) died of “**acute thrombocytopenia**” which caused a “**brain hamorage**” as result of “**anaphylaxis**” a severe allergic reaction. A “**petechial hemorage**” can result such as in the brain, eyes, on the skin and the lungs caused by bleeding under the skin, etc. “**thrombocytopenia**” can cause low platelet levels, that normally might be between about 50.000 and 400.000 but can result in spontaneous bleeding when less than 10.000 and Dr Michael appeared to be left with about zero. As Dr Hanson further explained they tried “steroids” also “**SOLU-MEDROL**” (**METHYLPREDNISOLONE**) and if that doesn’t work then try “**ROMIPLOSTIM**”, “**ELTROMPOPAG**” or “**RITUXIMAB**” as last resort take out the “**spleen**”. When a bleeding in the brain eventuates then Dr Hanson explained a cranial pressure may need to open the skull to reduce the pressure but with Dr Michael it went so quick that he died within minutes. Dr Hanson also explained that medication, even certain food, herbal remedies or MMR vaccine, also can result to “**thrombocytopenia**” What I understand from Dr Hanson explanations is that drug induced antibodies can cause the immune system to attack the body completely (**DITP**). Drugs causing this, such as “**QUINIDINE**”, “**HEPARIN**”, “**SULFONYLUREAS**” (A.K.A. “**BACTRIM**”), as well as various “**ANTIBIOTICS**”.

I since January 2020, when I heard first about COVID-19 commenced to download numerous articles/videos and in the past wrote about how pathologists of Hungary, Italy, France, Spain and Germany made clear that no one had died “from” COVID-19 but rather “with” COVID-19. Slides showing how blood caused brain “**hemorage**”, etc. Also how some of the brains were starved of “oxygen”. Many of the elderly such as Olga have vascular problems and then use “**ASPIRIN**” to thinner the blood. More than likely many if not most of the nursing home residents may have been on some sort of medication which may have included something like “**APIXABAN**” (“**ELIQUIS**” tablets) and then generally it is as I understand it recommended not to use “**ASPIRIN**” as that would be a DOUBLE WHAMMY of blood thinner and this could actually cause severe harm.

That is why Olga is with her Heart Failure under a specialist who determines what she may or may not have as medication, etc.

As the following also makes clear that you really do not vaccinate anyone when you do not know if the person already had overcome COVID-19 and as such any vaccination is useless and/or dangerous and the same if a person is at that time already infected.

Suspicious grow that nanoparticles in Pfizer’s COVID-19 vaccine trigger rare allergic reactions

By [Jop de Vrieze](#) Dec. 21, 2020 , 5:10 PM

Science’s COVID-19 reporting is supported by the Pulitzer Center and the Heising-Simons Foundation.

QUOTE

As of 19 December, the United States had seen six cases of anaphylaxis among 272,001 people who received the COVID-19 vaccine, according to a [recent presentation](#) by Thomas Clark of the U.S. Centers for Disease Control and Prevention (CDC); [the United Kingdom has recorded two](#). **Because the Pfizer and Moderna mRNA vaccines use a new platform, the reactions call for careful scrutiny, says Elizabeth Phillips, a drug hypersensitivity researcher at Vanderbilt University Medical Center who attended an NIAID meeting on 16 December. “This is new.”**

News reports about the allergic reactions have already created anxiety. “Patients with severe allergies in the US are getting nervous about the possibility that they may not be able to get vaccinated, at least with those two vaccines,” Togias wrote in an invitation to meeting participants. “Allergies in general are so common in the population that this could create a resistance against the vaccines in the population,” adds Janos Szebeni, an immunologist at Semmelweis University in Budapest, Hungary, who has long studied hypersensitivity reactions to PEG and who also attended the 16 December gathering.

Scientists who believe PEG may be the culprit stress that vaccination should continue. “We need to get vaccinated,” Phillips says. “We need to try and curtail this pandemic.” But more data are urgently needed, she adds: “These next couple of weeks in the U.S. are going to be extremely important for defining what to do next.”

Toothpaste and shampoo

Pfizer’s and Moderna’s clinical trials of the vaccines, which involved tens of thousands of people, did not find serious adverse events caused by the vaccine. **But both studies excluded people with a history of allergies to components of the COVID-19 vaccines; Pfizer also excluded those who previously had a severe adverse reaction from any vaccine.** People with previous allergic reactions to food or drugs were not excluded, but may have been underrepresented.

The two vaccines both contain mRNA wrapped in lipid nanoparticles (LNPs) that help carry it to human cells but also act as an adjuvant, a vaccine ingredient that bolsters the immune response. The LNPs are “PEGylated”—chemically attached to PEG molecules that cover the outside of the particles and increase their stability and life span.

END QUOTE

What we have is that the “vaccination” is only for people who have a “mild” COVID and the test excluded persons with allergies. As such, those test really are not justifying to be relied upon where the very persons who may required to be part of the test are excluded as to ensure a better alleged test result. If you are going to vaccinate “anyone” then the test likewise should be regarding “anyone”.

Suspicions grow that nanoparticles in Pfizer’s COVID-19 vaccine trigger rare allergic reactions

By [Jop de Vrieze](#) Dec. 21, 2020 , 5:10 PM

Science’s COVID-19 reporting is supported by the Pulitzer Center and the Heising-Simons Foundation.

QUOTE

Katalin Karikó, a senior vice president at BioNTech who co-invented the mRNA technology underlying both vaccines, says she discussed with Szebeni whether PEG in the vaccine could be an issue. (The two know each other well; both are Hungarian and in the 1980s, Karikó taught Szebeni how to make liposomes in her lab.)

They agreed that given the low amount of lipid and the intramuscular administration, the risk was negligible. Karikó emphasizes that based on what we know so far, the risk is still low. “All vaccines carry some risk. But the benefit of the vaccine outweighs the risk,” she says.

Szebeni agrees, but says he hopes that’s also true in the long run. He notes that both mRNA vaccines require two shots, and he worries anti-PEG antibodies triggered by the first shot could increase the risk of an allergic reaction to the second or to PEGylated drugs.

Stay for 30 minutes.

To understand the risk, Phillips says, it’s crucial to unravel the mechanisms underlying the immune reactions and find out how often they are likely to occur. The known U.S. cases are currently under study, but key clues may have vanished: Anaphylactic reactions produce biomarkers that only remain in the blood for a few hours. At the NIAID meeting, participants discussed ways to ensure that blood samples from future cases are taken immediately and tested for those markers.

If PEG does turn out to be the culprit, the question is, what can be done? Screening millions of people for anti-PEG antibodies before they are vaccinated is not feasible. Instead, [CDC guidelines](#) recommend not giving the Pfizer or Moderna vaccines to anyone with a history of severe allergic reaction to any component of the vaccine. **For people who have had a severe reaction to another vaccine or injectable medication, the risks and benefits of vaccination should be carefully weighed, CDC says.** And people who might be at high risk of an anaphylactic reaction should stay at the vaccination site for 30 minutes after their shot so they can be treated if necessary.

“At least [anaphylaxis] is something that happens quickly,” Philips says. “So, it’s something that you can be very much alerted to, prepared to recognize early and be prepared to treat early.”

END QUOTE

Obviously to “**the risks and benefits of vaccination should be carefully weighed**” you require a qualified medical specialist to consider such matters and not merely assume it is all right.

Again:

To understand the risk, Phillips says, it’s crucial to unravel the mechanisms underlying the immune reactions and find out how often they are likely to occur. The known U.S. cases are currently under study, but key clues may have vanished: Anaphylactic reactions produce biomarkers that only remain in the blood for a few hours.

By the time any proper diagnoses can be made AFTER the vaccination then it might be well after the person has died. Hence, any specialist must be involved **PRIOR TO** any vaccination being done.

QUOTE

Dr. Anthony Fauci, director of the National Institute of Allergy and Infectious Diseases, commented that the deaths have to be “put into context with the population they occurred in.”⁵

In other words, they were old and old people die. It’s hypocrisy at its finest. When seniors die before vaccination, it’s due to COVID-19 and something must be done to prevent it, but when they die after vaccination, they die of natural causes and no preventive action is necessary.

The World Health Organization added that since there was “no certain connection” of the vaccines to Norway’s deaths, there is no reason to discontinue giving it to senior citizens.

After Covid-19 Vaccination: Lots of Deaths in Retirement Homes

QUOTE

The post-vaccinal corona infections or deaths, according to the home management and vaccination doctors, have to do with the fact that the vaccine has not yet been able to develop its full effect in the short time.

A downright absurd argument: Who in the world would voluntarily be vaccinated with a vaccine that would result in infection or even death? In other words: how stupid do these mass murderers actually consider their victims?

One thing is clear: the vaccinations cause exactly what they should avoid: a corona infection and / or death immediately after the vaccination. And thus confirm exactly what some governments and courts are now saying:

- A Portuguese court of appeal considers PCR test as proof of corona infection to be completely unreliable (*judgment in Portuguese [here](#)* (<https://drive.google.com/file/d/1t1b01H0Jd4hsMU7V1vy70yr8s3jlBedr/view>) and is lifting quarantine ([source](#)) (<https://tkp.at/2020/11/17/portugiesisches-berufungsgericht-haelt-pcr-tests-fuer-unzuverlaessig-und-hebt-quarantaene-auf/>)
- Professor Dr. Ulrike Kämmerer (special fields are human biology, virology, immunology, cell biology) says that the PCR test is not suitable for determining a corona infection; it is like "reading coffee grounds". [source](#) (<https://www.freiewelt.net/nachricht/pcr-test-ist-wie-kaffeersatzlesen-10082051/>)
- "With the PCR test you can find almost anything in anyone." (Prof. Dr. Kary Mullis, the PCR test inventor and Nobel Prize winner [Quelle](#) (<https://www.bitchute.com/video/UAvQq5zL2mEZ/>)

- The PCR test provides governments with the result they want ([source](#)) (<https://michael-mannheimer.net/2020/11/11/40-unwiderlegbare-zitate-und-fakten-beweisen-der-pcr-test-ist-eine-grosse-luege-er-dient-allein-der-legitimation-einer-verbrecherischen-politik/>)

- Vaccination recommendation changed: Norway reacts to 23 (!) Deaths immediately after vaccination ([source](#)) (<https://unser-mittleuropa.com/impfempfehlung-geaendert-norwegen-reagiert-auf-23-todesfaelle-unmittelbar-nach-impfung/>)
- After corona vaccination: over 1000 people in the emergency room ([source](#)) (<https://www.neopresse.com/gesundheit/hunderte-in-notaufnahme-nach-corona-impfung/>)
- Norway: 13 deaths after vaccination - side effects of the mRNA vaccines "could have led to death" ([source](#)) (<https://www.epochtimes.de/politik/ausland/norwegen-13-todesfaelle-nach-impfung-nebenwirkungen-der-mrna-impfstoffe-koennten-zum-tod-gefuehrt-haben-a3424777.html>)

At the end of the article I have made some statements by leading global epidemiologists who expose the false reports in the standard media about the alleged incausality of the vaccinations with the subsequent corona infections and the death of the vaccinated as brazen lies and prove that the vaccine is in truth a biological weapon that irreversibly reprograms the genome of the vaccinated person, leading to fatal immune suppression and even death.

Before that, some recent reports from the same mass media about mass outbreaks of corona diseases in old people's homes, which could no longer be concealed.

25 reports of corona outbreaks and deaths after corona vaccinations in old people's homes

QUOTE

Vaccines overview

14 May 2019

The Therapeutic Goods Administration (TGA) is responsible for assessing vaccines and other medicines before they can be used in Australia. We only register a vaccine for use in Australia if its benefits are much greater than its risks.

On this page: [What is a vaccine?](#) | [The TGA assesses vaccines before they can be used in Australia](#) | [TGA decisions are informed by independent advice](#) | [The TGA monitors vaccines after they are supplied in Australia](#) | [Where can I find more information?](#) | [Frequently asked questions](#)

What is a vaccine?

Vaccines are medicines that protect you against specific diseases, such as measles, influenza (flu) or whooping cough. Vaccination is the act of receiving a vaccine, which in most cases involves having the vaccine injected with a needle.

Vaccines can contain:

- dead viruses or bacteria
- severely weakened forms of viruses or bacteria
- small, purified components of viruses or bacteria.

After receiving a vaccine, your body's immune system can remember the virus or bacterium and fight off an infection much more effectively than if it was encountering the virus or bacterium for the first time.

Vaccines protect you and the people around you from serious and life-threatening diseases. There are some people in the community who cannot be vaccinated because they are too young or too sick. Widespread vaccination helps protect these people by making it more difficult for a disease to spread.

Some people experience minor side effects following vaccination, such as mild fever or pain, redness, or swelling at the injection site. Serious side effects, like allergic reactions, are very rare.

The TGA assesses vaccines before they can be used in Australia

The TGA rigorously assesses vaccines for safety, quality and efficacy before they can be used in Australia. Vaccines receive the same high level of scrutiny as other prescription medicines and related therapeutic goods.

We use the best available scientific evidence to assess the risks and benefits of each vaccine. Our evidence requirements are based on international guidelines developed by the European Medicines Agency.

Clinical trials are a key part of the scientific evidence that we review during the assessment of a new vaccine. A clinical trial is a scientific study where a promising new medicine is given to a group of people to assess its risks and benefits.

We carefully assess the results of clinical trials and the way in which the trials were conducted. We require well-designed trials of a sufficient length with a sufficient number of people who represent the people for whom the vaccine is intended. The results must demonstrate that the benefits of the vaccine greatly outweigh the risks.

We also require vaccine manufacturers to meet manufacturing quality standards. As a further check, our laboratories assess the quality of every batch of a vaccine before it can be supplied in Australia.

TGA decisions are informed by independent advice

The TGA's decision of whether to register a vaccine for use in Australia is informed by the advice of the [Advisory Committee on Vaccines \(ACV\)](#).

The ACV is an independent committee appointed by the Australian Government Minister for Health. It is composed of members with expertise in science, medicine and public health.

The ACV complements our expertise in the TGA, ensuring that our assessments of vaccines are as robust as possible.

The TGA monitors vaccines after they are supplied in Australia

The TGA monitors vaccines for safety after they are supplied in Australia. If you experience an adverse event (side effect) from a vaccine, you should seek assistance from a health professional and [report the adverse event](#) to the TGA.

We receive adverse event reports from consumers, health professionals, the companies who supply vaccines, and state and territory health departments. We publish these reports in the publically available [Database of Adverse Event Notifications \(DAEN\)](#).

Reporting serious adverse events is mandatory for the companies who supply vaccines in Australia. These companies must also develop and implement risk management plans for their vaccines.

Our laboratories also help monitor vaccine safety. Alongside assessing the quality of all vaccine batches before they are supplied in Australia, our laboratories may also test the quality of selected vaccine batches after they are supplied in Australia. [Laboratory testing results](#) are published on our website.

If we suspect there is a problem with a vaccine, we will launch an investigation. In some cases, this could mean suspending the use of a vaccine during the investigation. We notify the community of safety concerns through the publication of [alerts](#) on our website.

Where can I find more information?

- The Australian Government Department of Health [immunisation](#) page includes information on getting vaccinated, vaccine safety, the National Immunisation Schedule and other topics. You can also call the National Immunisation Hotline on 1800 671 811.
- The Australian Government Department of Health '[Get the facts](#)' website includes additional information about vaccinating your children.
- The NPS Medicinewise website includes [information about vaccines](#) and other medicines in the consumer information section. You can also call their [Medicines Line](#) on 1300 MEDICINE (1300 633 424).
- The [National Centre for Immunisation Research and Surveillance](#) (NCIRS) website includes a range of vaccine information, including [factsheets](#) on vaccine preventable diseases and vaccine safety.
- The Australian Academy of Science website includes information on [the science of immunisation](#).

Frequently asked questions

Does the TGA consider all of the ingredients in a vaccine before registering it for use?

Yes. The TGA considers the safety, quality and efficacy of every ingredient in a vaccine before we register the vaccine for use in Australia.

Vaccines contain an active ingredient from the target virus or bacterium. They also contain other ingredients for particular purposes, such as stimulating the body's immune response and stabilising the vaccine during storage. The TGA assesses all of these ingredients for safety, quality and efficacy before the vaccine can be used in Australia.

Show more information about Are there any differences in the registration process for seasonal flu vaccines?

Yes. The registration process has been customised to ensure timely availability of seasonal influenza (flu) vaccines.

The composition of seasonal flu vaccines changes every year because there are new strains of flu viruses every year. This short timeframe means that it is not practical to conduct clinical trials for annual virus updates to seasonal flu vaccines. To ensure timely availability of seasonal flu vaccines, the TGA does not require clinical trial data for annual virus updates for vaccines that are already on the Australian Register of Therapeutic Goods (ARTG). We take this approach because there have been many years of safe and effective use of seasonal flu vaccines in several million people. This registration process only applies for seasonal flu vaccines where the manufacturing process is the same as a previously registered vaccine and the only change is to the strains of virus.

The [Australian Influenza Vaccine Committee \(AIVC\)](#) provides advice to the TGA on the composition of the seasonal influenza vaccine to be supplied in Australia. [AIVC recommendations](#) are published on our website.

END QUOTE

In my view it would have been sheer impossible for the TGA to claim on its website

QUOTE

We carefully assess the results of clinical trials and the way in which the trials were conducted. We require well-designed trials of a sufficient length with a sufficient number of people who represent the people for whom the vaccine is intended. The results must demonstrate that the benefits of the vaccine greatly outweigh the risks.

We also require vaccine manufacturers to meet manufacturing quality standards. As a further check, our laboratories assess the quality of every batch of a vaccine before it can be supplied in Australia.

END QUOTE

And **“The TGA monitors vaccines after they are supplied in Australia”**

This, as the following videos exposes what is wrong with vaccinations and that for about 32 years there has been no safety checking as to the vaccines. As found in legal proceedings involving lawyer Mr Robert F Kennedy and Mr Del Bigtree.

The Irrefutable Argument Against Vaccine Safety - with Author Del Bigtree

<https://www.youtube.com/watch?v=RJh3TiCFJH4>

[The Irrefutable Argument Against Vaccine Safety - with Author Del ...](#)

27 Jun 2018 ... The lecture will discuss the revelations of the CDC whistleblower Dr. William Thompson, who has provided 10000 documents that back up his ...

This video has charts, etc, to underline what they state being the facts.

It appears to me the TGA merely rubber stamps whatever is falling of the lips of the CDC (USA) and WHO (World Health Organization) and as result numerous Australian citizens I suspect have suffered horrendous consequences and even death.

[Nach Covid-19-Impfung: Jede Menge Tote in Altersheimen | Michael Mannheimer Blog \(michael-mannheimer.net\)](#)

QUOTE

"The mRNA vaccination is like Russian roulette"

The Irish immunologist and molecular biologist Prof. Dolores Cahill explained in an almost 5-hour interview why people vaccinated with COVID-19 will the months after the mRNA vaccination (source, among others, [here](#)):

"If the vaccinated come into contact with wild coronavirus a few months after vaccination, their immune system will in many cases react with a deadly cytokine storm. This is because the vaccine mRNA genetically modifies the body's cells so that they produce the coronavirus spike protein. If a new coronavirus later activates the immune system, it recognizes the self-produced spike proteins as a danger and starts a major attack against its own body cells. As a result, the vaccinated suffer septic shock with multiple organ failure, which usually ends in death "

END QUOTE

Those in nursing homes generally have at times various **COMMON DENOMINATORS**.

Yet, despite this you may find some clusters of deaths in certain nursing homes and yet not in others.

This to me seems to indicate that the clusters in certain nursing homes, even so attributed to be because of COVID-19 really may have other causes.

Going through numerous videos I discovered that in a nursing home where they had a reported 300% infection rate (relating not only to residents but also to its staff) then the real reason of deaths, etc might be say because of lack of proper housekeeping.

For example it was reported that a particular nursing home had deep cleaning and yet still even staff members fell ill. If then as I write about in the past one watch a video one can see a kitchen staff member donned in PPE (Personal Protection Equipment) disposing of cartons that are on a kitchen trolley and then with the trolley returns back into the kitchen. Obviously the kitchen staff members hands are not getting contaminated but the gloves, the trolley are and then touching the doorknobs so they will be with bacterium from the dump-master/rubbish bin. Then this staff member prepares the meals and well spread the bacterium around the food utilities, etc. By this the entire previous deep-cleaning has become worthless. Staff members entering this highly contaminated kitchen then spread it around and if they also consume food they too likely will fall ill. Obviously the already frail residents may easily then become severe ill if not die. So what, they may have had COVID-19 but the real killer in my view likely was the bacterium spread by this lack of proper housekeeping kitchen staff member.

If then those residents also are given a flu vaccination then that can drive them over the cliff and cause their deaths.

If now they are given any *Pfiser/Moderna* so called vaccine then I view that likely will kill them off also. This as they contain “mRNA” to amend the DNA of a person.

Now let us zero into this. There are reports that the elderly who had previously overcome COVID-19 now died after the vaccination.

And we had people who had COVID-19 now died after vaccination.

Let us get this into reality. An elderly person who overcame COVID-19 obviously then had antibodies and certainly would not need any “mRNA” vaccine to alter the DNA and then causing different antibodies to be created for what? Those different kind of antibodies more than likely would combat each other and the result being the death of the elderly person.

As for those battling COVID-19 now being vaccinated with the “mRNA” to alter their DNA have the complexed battle to fight the real COVID-19 as well as a pretended virus. Little wonder such frail elderly person then ends up dying soon after a vaccination, as many reportedly did.

Attacking Ourselves: Top Doctors Reveal Vaccines Turn Our Immune System Against Us

QUOTE

The research is hard to ignore, vaccines can trigger autoimmunity with a laundry list of diseases to follow. With harmful and toxic metals as some vaccine ingredients, who is susceptible and which individuals are more at risk?

No one would accuse Yehuda Shoenfeld of being a quack. The Israeli clinician has spent more than three decades studying the human immune system and is at the pinnacle of his profession. You might say he is more foundation than fringe in his specialty; he wrote the textbooks. *The Mosaic of Autoimmunity, Autoantibodies, Diagnostic Criteria in Autoimmune Diseases, Infection and Autoimmunity, Cancer and Autoimmunity* – the list is 25 titles long and some of them are cornerstones of clinical practice. Hardly surprising that Shoenfeld has been called the "Godfather of Autoimmunology" – the study of the immune system turned on itself in a wide array of diseases from type 1 diabetes to ulcerative colitis and multiple sclerosis.

But something strange is happening in the world of immunology lately and a small evidence of it is that the Godfather of Autoimmunology is pointing to [vaccines](#) – specifically, some of their ingredients including the toxic metal aluminum – as a significant contributor to the growing global epidemic of autoimmune diseases. The bigger evidence is a huge body of research that's poured in in the past 15 years, and particularly in the past five years. Take for example, a recent [article](#) published in the journal *Pharmacological Research* in which Shoenfeld and colleagues issue unprecedented guidelines naming four categories of people who are most at risk for vaccine-induced autoimmunity.

"On one hand," vaccines prevent infections which can trigger autoimmunity, say the paper's authors, Alessandra Soriano, of the Department of Clinical Medicine and Rheumatology at the Campus Bio-Medico University in Rome, Gideon Neshet, of the Hebrew University Medical School in Jerusalem and Shoenfeld, founder and head of the Zabludowicz Center of Autoimmune Diseases in the Sheba Medical Center at Tel Hashomer. He is also editor of three medical journals and author of more than 1,500 research papers across the spectrum of medical journalism and founder of the International Congress on Autoimmunology. "On the other hand, many reports that describe post-vaccination autoimmunity strongly suggest that [vaccines can indeed trigger autoimmunity](#). Defined autoimmune diseases that may occur following vaccinations include arthritis, lupus (systemic lupus erythematosus, SLE) diabetes mellitus, thrombocytopenia, vasculitis, dermatomyositis, Guillain-Barre syndrome and demyelinating disorders. Almost all types of vaccines have been reported to be associated with the onset of ASIA."

ASIA – or Autoimmune/inflammatory Syndrome Induced by Adjuvants (also known as Shoenfeld's syndrome) -- first appeared in the [Journal of Autoimmunology](#) four years ago. It is an umbrella term for a collection of similar symptoms, including Chronic Fatigue Syndrome, that result after exposure to an adjuvant – an environmental agent including common vaccine ingredients that stimulate the immune system. Since then an enormous body of research, using ASIA as a paradigm, has begun to unravel the mystery of how environmental toxins, particularly the metal aluminum used in vaccines, can trigger an immune system chain reaction in susceptible individuals and may lead to overt autoimmune disease.

Autoimmune disease results when the body's system meant to attack foreign invaders turns instead to attack part of the body it belongs to (*auto* is Greek for self). If the immune system is like a national defence system, antibodies are like drones programmed to recognize a certain type of invader (a bacteria say) and to destroy them or mark them for destruction by other special forces. Autoantibodies are like drones that are misidentifying a component of the human body and have launched a sustained attack on it. If they mistakenly target a component of the conductive sheath around neurons, for example, nerve impulses stop conducting properly, muscles go into spasm and coordination fails; multiple sclerosis results. If autoantibodies erroneously focus on joint tissue; rheumatoid arthritis results. If they target the islets of Langerhans in the pancreas, Type 1 diabetes, and so on

"Throughout our lifetime the normal immune system walks a fine line between preserving normal immune reactions and developing autoimmune diseases," says the paper. "The healthy immune system is tolerant to self-antigens. When self-tolerance is disturbed, dysregulation of the immune system follows, resulting in emergence of an autoimmune disease. Vaccination is one of the conditions that may disturb this homeostasis in susceptible individuals, resulting in autoimmune phenomena and ASIA."

Who is "susceptible" is the subject of the paper entitled, "Predicting post-vaccination autoimmunity: Who might be at risk?" It lists four categories of people: 1) those who have had a previous autoimmune reaction to a vaccine, 2) anyone with a medical history of autoimmunity, 3) patients with a history of allergic reactions, 4) anyone at high risk of developing autoimmune disease including anyone with a family history of autoimmunity, presence of autoantibodies which are detectable by blood tests and other factors including low vitamin D and smoking.

MORE

Dr. David Martin methodically and accurately takes apart the phony story that Moderna and Pfizer are delivering vaccines. He reveals that Moderna admits that their patents say "gene therapy" not "vaccine." They put a synthetic RNA fragment embedded into a fat carrier, whose only purpose is to lessen the symptoms associated with the S-1 spike protein, not the actual virus. The legal ramifications of this deception are immense.

Read on..... lots of great info here to de-program (red-pill) people with a healthy dose of truth !!!

Background & Introduction:

In the early 1990's David Martin was doing clinical trials at University of Virginia Medical School. He worked in at the time, controversial (EMF) electro-magnetics field therapy for a Japanese company when he became aware of 15 US Code section 41 of the (FTC) Federal Trade Commission Act that shuts practitioners down and seizes their assets for deceptive labeling practices. It's when you use terms or phrases or words where you know that you are using them with an intent to deceive.

Somebody who is watching this video:

1. Knows an elected official.
2. Knows a Prosecutor, whether that's a US Attorney, a US Attorney General in a State.
3. Somebody in the viewing of this video knows Somebody who needs to listen to this video.

If this Law can be used to shut down people of good will who are trying to help other people, it certainly should be equally applied when we know deceptive medical practices are being done in the name of Public Health.

Both Pfizer and Moderna have been promoting what they call a "Vaccine".

When the public thinks of a "Vaccine" one of at least two things has happened:

1. Whatever you're getting is going to keep you from getting infected by some sort of pathogen, that's assumption number 1.
2. Assumption number 2 is that if you somehow or another that you get that vaccine, you're

doing your public health bit to make sure you don't transmit it to other people. Let's go back in history to 1905, to the very famous Jacobsen case in Massachusetts, where the Supreme Court (of the United States). And I'm going to read the quote because I think it's important:

"This court has more than once recognized as a fundamental principle, that persons and property are subject to all kinds of restraints and burdens in order to secure the general comfort, health, and prosperity of a State."

So what the Supreme Court in Jacobsen said, was that the police powers, the public health powers, were legitimate, if they secured, secure the general comfort, health, and prosperity of the State.

Which would then suggest, that to meet a "Vaccine Public Health Standard", and quite frankly a "Vaccine Public Health Definition" something about either you are immune from getting a pathogen, or and potentially and, you are not going to transmit the pathogen must be part of what lies within that definition. That couldn't be more straight forward than the Supreme Court of the United States in 1905.

Here's where it gets more interesting, when Moderna was started (2010) according to SEC filings, they make a point of saying that their technology is a "Gene Therapy Technology". You'll notice that they don't say "Vaccination". They actually say, "Gene Therapy Technology".

And it was set up to be a cancer treatment. This is "Gene Therapy Chemo-therapy". Let's just stop for a minute and ask the question, If Anthony Fauci got up and said to everybody, "Hey, we want you to take Chemo-Therapy for a disease that you may or may never have".

There wouldn't be a single person raising their hands. It would be Prophylactic Chemo-Therapy. You wouldn't be doing it. You know why you wouldn't be doing it, because it's a dumb idea, that's why you wouldn't be doing it.

And States wouldn't be able to mandate it and employers wouldn't be able to mandate it. No employer would be able to mandate Chemo-Therapy for a disease that you don't have. That would not be a "Legal" thing to do.

But they called they're technology, "Gene Therapy Technology". They made a BIG POINT of saying this is NOT an investigation in a new drug, this was "Gene Therapy Technology". What they are doing is putting together a synthetic fragment of nucleic acids. It's not mRNA. It's not natural. It's not even a natural component of a fragment. It's a synthetic fragment, it's a technology embedded within a fat carrier, a PEG carrier, and that is being introduced into the cell, not to induce immunity from an infection with a SARS-COV-2 virus and it's not to block transmission of it, it's actually to lessen symptoms associated with the "S1 Spike Protein" not even the virus itself.

The fact of the matter is that this thing is actually NOT a Vaccination. Now why would I say it's not a vaccination?

Let's look at the Legal standard for what a vaccination is. And let's start with the CDC Center for Disease Control own definition. Why not start with the people who run the racket.

Two important operative definitions:

1. Immunity is protection from an infectious disease; If you are immune to a disease, you can be exposed to it without becoming infected.
2. A vaccine is a product that stimulates a person's immune system to produce immunity (see the definition above) to a specific disease, protecting the person from that disease. Vaccines are usually administered through needle injections but also administered by mouth sprays and nose.

Definitions:

1. Vaccine is a defined term
2. Immunity is a defined term

Now, by definition, neither Pfizer nor Moderna even claims that to be the case. In their clinical trials, they specifically state they are not going to test that. The CDC definition and what Pfizer and Moderna are doing, do not match. If this isn't a "Vaccine", why are they calling it a "Vaccine"? That's a question you should be thinking in your head.

CDC is not the Law, they are an expression of an agency (actually a privately owned corporation by Deep State players) empowered by the law but not actually the law. Let's look at the Laws where "Vaccines" have been defined. It turns out that this is a much harder exercise than you would think.

Because "Vaccine" the term, is actually not a legally defined term in an enormous number of statutes that govern vaccines. Let's look at a couple of examples:

1. From the Iowa Code; "Vaccine means a specially prepared antigen administered to a person for the purpose of providing immunity".
2. Washington State, the state that has been absolutely tyrannical and all its interventions around Corona virus; "Vaccine ~ A preparation of a killed or attenuated living micro-organism or fraction thereof."

Stop right there. mRNA synthetically developed by Moderna and Pfizer do NOT meet this definition. mRNA is not a fraction of a living thing or a killed thing because it's neither living or killed. mRNA are explicitly synthetic gene therapy. They are NOT vaccines as defined by the statutes.

So here comes the really BIG PROBLEM. The BIG Problem is that if we look at the clinical trials that were approved, for what is called the SARS/COV-2 COVID-19 vaccine program under the "Operation Warp Speed".

Listen very carefully to what the Primary Endpoint is:

1. The Primary Endpoint is the prevention of symptomatic COVID-19 disease.

Now let's pause and unpack that. Starting with COVID-19 disease. As you all know... in February (2020) the W.H.O. (World Health Organization) and the CDC and the Dept. of Health & Human Services made a very clear distinction, they wanted to make sure that COVID-19, which was a series of clinical symptoms, which included things like fever, muscle pain, aches, loss of smell, certain radiologic findings in the lungs, a whole host of things, a laundry list of things that got put within this thing called COVID-19, which by the way has been re-defined as the PIC (Pneumonia, Influenza, COVID) as a combined set of things so that we can catch more people allegedly dying of this thing.

COVID-19 disease is not actually a disease. It is a set of symptoms. And they were very clear on this by the way.

They tried to make a causal statement. They tried to say that SARS-COV-2 causes COVID-19, but then there was a tiny problem.

Most of the people tested positive using the RT-PCR method, had no clinical presentation, which means that you can't make a causal statement.

You can't say the virus causes the disease, because unfortunately most people with a Positive RT-PCR Test for a fragment of what was called SARS-COV-2 didn't have any problem. In fact well over 80% had no problem.

Which leads us to the question that we can't say it's causal, it's more problematic than this. The Primary Endpoint for the vaccine trial was not a Vaccine endpoint. A Vaccine Endpoint has to do with immunity. And a Vaccine Endpoint has to do with transmissibility and neither of those were measured.

And it gets worse. And I'm quoting right now, straight out of Moderna's own statement; "Key Secondary Endpoints include prevention of severe COVID-19 disease and prevention of infection by SARS-COV-2."

But here comes a tiny little problem... by their own admission in their clinical study, it was, and I'm quoting; "Impractical to measure infection".

That's right you heard me correctly, it's impractical to measure infections so there is no evidence in the Phase 3 clinical trials.

Not Any of the gene therapy had anything to do with the infection or not of SARS-COV-2.

You cannot have a vaccination, it's not under the legal definition of vaccination.

You cannot have a vaccination, that is in fact not meeting either an immune or a transmission standard and their clinical trial was set up specifically so that it could not measure either of those things.

And then let's quote shall we from the "New England Journal of Medicine" and from "The Lancet", and this is October and December (2020) respectively and I'm just going to go ahead and read this quote; "**At the time of this writing, no correlate of protection from SARS-COV-2 has been established.**"

In other words, not a shred of evidence from the clinical trials said anything about protection from infection with SARS-COV-2, which means that every single person who has value signaled their vaccination, because they're doing their part not to be infected with SARS-COV-2, and not to get COVID-19...

NEWSFLASH ~ You have been violating the FTC Federal Trade Commission Act by deceptive practices. You've been telling people that there is a protection that the data itself does not afford.

Why don't I read from the second report... and I quote, and this is "The Lancet" and the "New England Journal of Medicine"; "**No existing vaccine has been shown to be effective against infection with any beta-Corona virus, the family that includes SARS-COV-2 which causes COVID-19.**"

People this isn't my opinion... This is in fact, fact.

END QUOTE

No matter what any government may direct it cannot overrule to Rule of law as it only can exercise its executive powers within the legal provisions provided by any relevant Parliament. Therefore, where it requires a special trained specialist to deal with certain matters such as a brain surgeon, heart surgeon, etc, then the executive government cannot willy nilly permit a person employed to fill shelves in a store to take over and perform "medical treatment" upon a person for which this person is **not medically qualified**.

We have this nonsense about mask and yet again lockdowns whereas the real issues are generally ignored.

"The possible path from whatever original animal species all the way through to the Huanan market could have taken a very long and convoluted path involving also movements across borders,"

END QUOTE

Reality is that as was made clear by SkyNews that already in September 2019 staff at a Wuhan Institute were found to have been infected. And before that in July 2019 the Chinese Communist Party urged all citizens to be checked for a special virus. As such, the virus has been roaring on and mutating since early 2019 in China. Yet, people were nevertheless travelling to and from China spreading it like wild fire around the world before finally on 31 December 2019 the CCP notified WHO (World Health Organization). And while the WHO may have claimed that the CCP was fully cooperating, in my view concealing this virus for most of the 2019 cannot be deemed appropriate conduct.

QUOTE article

When Caucasians descended upon (what is now known as) the Commonwealth of Australia certain illnesses devastated if not obliterated some local native communities. It was simply that the DNA structure of Caucasians was more able to sustain certain deceases, while those with oriental DNA structures seemingly couldn't. This is also why whenever the so-called "white man" enters any area for the first time the natives in those countries may be devastated if not obliterated. The references to "white man" is not necessarily restricted to Caucasians but also can include groups not necessarily defined as Caucasians but still different then the local natives, as eventuated as I understand it in South America.

I am not a specialist in DNA issues but merely reflect my understanding from numerous reports and video's I took the time to consider.

Therefore, a person of Aboriginal descent may innocently take a plane trip from say Sydney to Brisbane and then catch the virus from the plane trip. Not because any person on the same plane trip was a carrier of the Corona virus but because of the plane previously having carried a person who was a carrier of the corona Virus. I understand that when in the past a survey was done as to how clean the trays passengers use to eat from they found E. coli and even faeces on the trays.

I understand that when in the past a survey was done as to how clean the trays passengers use to eat from they found E. coli and even faeces on the trays.

The term ‘Oriental’ is outdated, but is it racist?

QUOTE

Erika Lee, director of the Immigration History Research Center at the University of Minnesota and author of “The Making of Asian America: A History,” offered a similar explanation to NBC News: “In the U.S., the term ‘Oriental’ has been used to reinforce the idea that Asians were/are forever foreign and could never become American. These ideas helped to justify immigration exclusion, racial discrimination and violence, political disfranchisement and segregation.” Lee also claimed that continued use of the term “perpetuates inequality, disrespect, discrimination and stereotypes towards Asian Americans.”

I don't see it that way; I see self-righteous, fragile egos eager to find offense where none is intended. A wave of anti-Oriental discrimination is not sweeping the country. Besides, the term has been steadily falling out of circulation since the 1950s, and it's mainly used today by older Asians and the proprietors of hundreds if not thousands of restaurants, hotels, shops and organizations with Oriental in their name. The well-intentioned meddlers will create trouble for exactly the population they want to defend.

My profession, Oriental medicine, is among those on the receiving end of the identity-politics outbreak. A funny thing I noticed is that my Caucasian (dare I say Occidental?) colleagues, not my Asian colleagues, are most eager to remove Oriental from public discourse. I suppose they're busy shouldering their burden of guilt. Margaret Cho said it best: "White people like to tell Asians how to feel about race because they're too scared to tell black people."

END QUOTE

To me the term "Oriental" has something majestic in it. Anyhow let us not sidetrack from the issue.

I have been watching video's which showed for example where a staff member was complaining that the mortuary was full and the hospital was now like a mortuary with bodies of dead people lying around everywhere.

When you consider Wohun being a city of about 11 million people and yet video's show that virtually no citizen is going over the streets then this may underline there is a lot more to the corona virus then we are led to belief.

From the many reports and video's it appears to me that oriental persons are more likely to be the victim of the Corona virus. Perhaps their immune system may not be sufficient to fight of the Corona virus as other races might be able to do.

In my view the dead toll is expected to be well over 400,000 in time to come and on 7 January then already the Chinese leadership implemented plans to deal with the outbreak and that may underline that it was then already aware that the case is more severe then what the public is told.

Indeed entire housing blocks are having boards placed around them so no one can leave the building and any food is obtained by lowering bucket onto the street so food is then placed in the bucket for the resident to then pull it up.

I watched videos where people were marched of in a single row with their hands tied behind their backs and a rope from prisoner to prisoner. Also how a groups of soldiers were breaking into a property and commenced to destroy items, etc. One women claimed her mother and father were dead in her unit and she now made the video to warn others that the Corona Virus is far more severe then what the government makes known.

I understand that at least 23 days at minimum should be used for quarantine.

Obviously, we are faced with about 11,000 Oriental students who now have a problem re-entering Australia, for their studies. We have a huge Oriental community and that existed before federation and obviously their health must be of concern to us all. Hence, we need to deal with the influx of anyone who could be carrying the Corona virus. But I view that when it comes to the students we must make special arrangements for them to be allowed to enter and then be placed in quarantine areas. Perhaps they can then via some link-up still do certain studies until they are cleared. We must not disregard their contribution in various ways to our society and must show we care about their health and wellbeing also and not just the money they pay for studies.

<https://apnews.com/675691ae5047935577a5aff7a617ba02>

Virus death toll nears 1,400 in China, with 5,090 new cases

By KEN MORITSUGU February 14, 2020 GMT

QUOTE

In this photo released by China's Xinhua News Agency, Chinese military medics arrive at the Tianhe International Airport in Wuhan, central China's Hubei Province, Feb. 13, 2020. China has mobilized its military resources in its fight against the COVID-19 viral outbreak. (Li Yun/Xinhua via AP)

Sudden Militarization Of Wuhan's P4 Lab Raises New Questions About The Origin Of The Deadly Covid-19 Virus

QUOTE

[A new report](#) - a product of a collaboration between a retired professional scientist with 30 years of experience in genomic sequencing and analysis who helped design several ubiquitous bioinformatic software tools, and a former NSA counterterrorism analyst - suggests that this possible **mistake may have been precipitated by the need to quickly finish research that was being rushed for [John Hopkin's Event 201](#)** which was held this past October and meant to gameplan the containment of a global pandemic. Research **may also have been hurried due to deadlines before the impending Chinese New Year** – the timing of these events point to increased human error, not a globalist conspiracy.

[Beijing has had four known accidental leaks of the SARS virus in recent years](#), so there is absolutely no reason to assume that this strain of coronavirus from Wuhan didn't accidentally leak out as well.

Given that **this outbreak was said to begin in late December [when most bat species in the region are hibernating](#)** and the Chinese horseshoe bat's habitat covers [an enormous swath of the region](#) containing scores of cities and hundreds of millions people to begin with, the fact that this Wuhan Strain of coronavirus, denoted as Covid-19, emerged in close proximity to the only BSL-4 virology lab in China, now notoriously located in Wuhan, which in turn was **staffed with at least two Chinese scientists – Zhengli Shi and Xing-Yi Ge (both virologists who had previously worked at an American lab which already bio-engineered an incredibly virulent strain of bat coronavirus)** – the **accidental release of a bio-engineered virus meant for defensive immunotherapy research from Wuhan's virology lab cannot be automatically discounted**, especially when the Wuhan Strain's unnatural genomic signals are considered.

Zhengli Shi notably co-authored a [controversial paper in 2015](#) which describes the creation of a new virus by combining a coronavirus found in Chinese horseshoe bats with another that causes human-like severe acute respiratory syndrome (SARS) in mice.

END QUOTE

Whatever this so-called “Corona Virus” resulted from we must as a society be assisting to the best of our ability. If indeed as appears to me that the Corona Virus mainly attacks oriental persons then it is essential this is conveyed to our local oriental community so they might get a better understanding that their lives is more at risk than that of others and so seek to minimize any opportunity for them to become a victim of their Corona Virus.

While logistic it might be a major thing to quarantine many oriental students, nevertheless we should not and must not deny them our show of appropriate care and concern.

END QUOTE article

Clearly wrote about a year ago I already wrote about matters.

While China as I understand it by mid 2019 was already then plagued by the COVID-19 nevertheless it claimed it was the USA military in October who caused the spread from the USA, also that it was “FROZEN FOOD”, etc. Anything but to concede the truth.

Remember the Young Woman Who Died While Waiting for a Coronavirus Test in New Orleans? ...Yeah, Well Now the Truth Is Out

QUOTE

But it was not true.

A second coronavirus test came back negative on Natasha Ott.

The media reported incorrectly that she died of COVID-19 while waiting for her test results.

Furthermore, it was not revealed that she was in fact suffering for the last TWO years from an undiagnosed intestinal condition but her boyfriend lied and said she was perfectly healthy.

She was a “Peace Corps Alumni.”

The Netherlands is OK with citizens being exposed to the coronavirus. That's both reassuring and terrifying to me.

QUOTE

Prime Minister Mark Rutte has essentially argued that social distancing will only prolong the disastrous effects of the virus. He believes — supposedly based on the knowledge of medical professionals — that the Dutch population should be somewhat exposed to the virus so that immunity can be formed and society can return to a sense of normalcy as quickly as possible. The Dutch government did shut down schools, cafes, movie theaters, houses of worship and many offices, but we are still free here to move around, shop, pick up takeout and receive packages in the mail. Our extensive public transportation network hasn't skipped a beat.

How the Virus Got Out

We also cannot ignore that various Parliaments (States) have legislated to have **EUGENICS/ EUTHANASIA** what I view really comes down to the mass murder of the elderly.

When in early July 2019 one of my sons notified me about a funeral of my former brother-in-law Mr Gerard Viggo Mulders I decided to attend. After all Gerard was my friend long before I knew and later married his sister. After the funeral however one of his brothers gave me the understanding that he actually had injected Gerard to cause his death. On 9 November 2019, I was visiting Gerard's stepfather in a nursing home when he made clear he was changing his will to exclude this brother as he was afraid he would try to kill him also. When I was about to leave the nursing home manager and a doctor entered the room, as the doctor was doing his rounds. We ended up in a conversation and I made known that I understood from this brother he had injected Gerard with some substance. The doctor then gave me the understanding that he never had been informed about this and neither knew about this when he issued Gerard's death certificate. But then I had obtained copies of Gerard's bank accounts and it indicated that after Gerard had died but before he was cremated some one or some persons had made repeated withdrawals using identity theft as to fraudulently withdraw monies totaling more than thousands of dollars. I dutifully had informed the Victorian Police about this even so one of my own son's could be an accomplice in this. The Victorian Police at the time never did a proper investigation for the Coroner to conclude there was insufficient evidence regarding the death being caused by other than natural causes. Nevertheless, the same brother now was campaigning against me even to what I understood death threats demanding I hand over the keys to the estate. This I refused as I made clear I had not been given any authority by the Probate Office to do so. During 2020 another of my sons then joined this brother but I maintained that without approval of the Probate Office I had no legal right to dispose of any part of the Estate. On 10 August 2020 the Victorian Police ordered me to leave a shopping centre, even so I provided them with the medical exemption certificate that for medical conditions I do not wear a mask, as the Victorian Police made known that they were unaware of any exemptions. On 29 August 2020 I was physically attacked by a man about one third of my age. Which I was advised by the store manager was recorded on the store's video, and I filed a formal complaint with the Victorian Police. Remarkably due to "COVID-19" the Victorian Police somehow have no time to within any reasonable period of time investigate any of this. Not even anything in 2019 regarding Gerard's issues. While Gerard's body was cremated, in my view, there is sufficient circumstantial evidence to pursue a criminal conviction but how can you blame the Victorian Police chasing people who have a medical condition not to wear a mask for pursuing them in a shopping centre or elsewhere and so real criminal issues just cannot be investigated.

Perhaps the very purpose by the governments to allow to apply **EUGENICS/EUTHANASIA** might be that it reduced the amount of elderly who can be disposed of, and so no longer require expenses for the government to be catered for in nursing homes and/or be provided with old age pensions. After all, with the **New World Order** to reduce population this might be just a way to go. And, anyone who may argue "We have the courts to protect our rights" obviously may ignore that those judges may be participating in the curling of the human race, for their own twisted reasons.

Hansard 17-3-1898 Constitution Convention Debates

QUOTE Mr. BARTON.-

Providing, as this Constitution does, for a free people to elect a free Parliament-giving that people through their Parliament the power of the purse-laying at their mercy from day to day the existence of any Ministry which dares by corruption, or drifts through ignorance into, the commission of any act which is unfavorable to the people having this security, it must in its very essence be a free Constitution. Whatever any one may say to the contrary that is secured in the very way in which the freedom of the British Constitution is secured. It is secured by vesting in the people, through their representatives, the power of the purse, and I venture [start page 2477] to say there is no other way of securing absolute freedom to a people than that, unless you make a different kind of Executive than that which we contemplate, and then overload your Constitution with legislative provisions to protect the citizen from interference. Under this Constitution he is saved from every kind of interference. Under this Constitution he has his voice not only in the, daily government of the country, but in the daily determination of the question of whom is the Government to consist. There is the guarantee of freedom in this Constitution. There is the guarantee which none of us have sought to remove, but every

INSPECTOR-RIKATI® a1 bout the BLACK HOLE in the CONSTITUTION-DVD

A 1st edition limited special numbered book on Data DVD ISBN 978-0-9803712-6-0

Email: admin@inspector-rikati.com. For further details see also my blog at <http://www.scrib.com/InspectorRikati>

one has sought to strengthen. How we or our work can be accused of not providing for the popular liberty is something which I hope the critics will now venture to explain, and I think I have made their work difficult for them. Having provided in that way for a free Constitution, we have provided for an Executive which is charged with the duty of maintaining the provisions of that Constitution; and, therefore, it can only act as the agents of the people. We have provided for a Judiciary, which will determine questions arising under this Constitution, and with all other questions which should be dealt with by a Federal Judiciary and it will also be a High Court of Appeal for all courts in the states that choose to resort to it. In doing these things, have we not provided, first, that our Constitution shall be free: next, that its government shall be by the will of the people, which is the just result of their freedom: thirdly, that the Constitution shall not, nor shall any of its provisions, be twisted or perverted, inasmuch as a court appointed by their own Executive, but acting independently, is to decide what is a perversion of its provisions? We can have every faith in the constitution of that tribunal. It is appointed as the arbiter of the Constitution. **It is appointed not to be above the Constitution, for no citizen is above it, but under it; but it is appointed for the purpose of saying that those who are the instruments of the Constitution-the Government and the Parliament of the day-shall not become the masters of those whom, as to the Constitution, they are bound to serve. What I mean is this: That if you, after making a Constitution of this kind, enable any Government or any Parliament to twist or infringe its provisions, then by slow degrees you may have that Constitution-if not altered in terms-so whittled away in operation that the guarantees of freedom which it gives your people will not be maintained; and so, in the highest sense, the court you are creating here, which is to be the final interpreter of that Constitution, will be such a tribunal as will preserve the popular liberty in all these regards, and will prevent, under any pretext of constitutional action, the Commonwealth from dominating the states, or the states from usurping the sphere of the Commonwealth. Having provided for all these things, I think this Convention has done well.**

END QUOTE

Let it be clear, that not a single judge is above the constitution, this even so many claim they are. The constitution provides for “**peace, order and good government**” and as the Framers of the Constitution made clear:

Hansard 17-3-1898 Constitution Convention Debates

QUOTE Sir EDWARD BRADDON.-

When we consider how vast the importance is that **every word** of the Constitution should be correct, **that every clause should fit into every other clause; when we consider the great amount of time, trouble, and expense it would take to make any alteration**, and that, if we have not made our intentions clear, we shall undoubtedly have laid the foundation of lawsuits of a most extensive nature, which will harass the people of United Australia and create dissatisfaction with our work, it must be evident that too much care has not been exercised.

END QUOTE

Hansard 8-2-1898 Constitution Convention Debates

QUOTE

Mr. OCONNOR (New South Wales).-The honorable and learned member (Mr. Isaacs) is I think correct in the history of this clause that he has given, and this is [start page 672] one of those instances which should make us very careful of following too slavishly the provisions of the United States Constitution, or any other Constitution. No doubt in putting together the draft of this Bill, those who were responsible for doing so used the material they found in every Constitution before it, and probably they felt that they would be incurring a great deal of responsibility in leaving out provisions which might be in the least degree applicable. But it is for us to consider, looking at the history and reasons for these provisions in the Constitution of the United States, whether they are in any way applicable; and I quite agree with my honorable and learned friend (Mr. Carruthers) that we should be very careful of **every word** that we put in this Constitution, and that we should have no word in it which we do not see some reason for. Because there can be no question that in time to come, when this Constitution has to be interpreted, **every word** will be weighed and an interpretation given to it; and by the use now of what I may describe as idle words which we have no use for, we may be giving a direction to the Constitution which none of us now contemplate. Therefore, it is incumbent upon us to see that there is some reason for **every clause** and **every word** that goes into this Constitution.

END QUOTE

Therefore the term “**peace, order and good government**” must be interpreted to the meaning it had and continue to have at the time the constitution was enacted and not what some judges may fabricate its meaning to be as to defy the true meaning and application of the constitution.

HANSARD 17-3-1898 Constitution Convention Debates

QUOTE

Mr. BARTON.- Of course it will be argued that **this Constitution** will have been made by the **Parliament of the United Kingdom**. That will be true in one sense, but not true in effect, **because the provisions of this Constitution, the principles which it embodies, and the details of enactment by which those principles are enforced, will all have been the work of Australians.**

END QUOTE

The following will also make clear that the Framers of the Constitution intended to have **CIVIL RIGHTS** and **LIBERTIES** principles embedded in the Constitution;

HANSARD 17-3-1898 Constitution Convention Debates (Official Record of the Debates of the National Australasian Convention)

QUOTE Mr. CLARK.-

the protection of certain fundamental rights and liberties which every individual citizen is entitled to claim that the federal government shall take under its protection and secure to him.

END QUOTE

Hansard 1-3-1898 Constitution Convention Debates

QUOTE

Mr. HIGGINS.-**Suppose the sentry is asleep, or is in the swim with the other power?**

Mr. GORDON.-**There will be more than one sentry. In the case of a federal law, every member of a state Parliament will be a sentry, and, every constituent of a state Parliament will be a sentry.**

As regards a law passed by a state, every man in the Federal Parliament will be a sentry, and the whole constituency behind the Federal Parliament will be a sentry.

END QUOTE

Therefore every person, regardless if being a scientist, medical doctor, government official or whomever is bound to ensure that no one acts in violation of the true meaning and application of the constitution.

The States are created within Section 106 of this constitution “**subject to this constitution**”, and as such, the same applies to the States and not just to the Commonwealth.

In my view a World Wide “White” Colour Revolution would be the best way to universally combat this New World Order dictatorship. Perhaps you may not care about yourself, but then at least care about your family members, and others.

This document can be downloaded from:

<https://www.scribd.com/document/487631644/20201210-PRESS-RELEASE-Mr-G-H-Schorel-Hlavka-O-W-B-ISSUE-The-World-Wide-White-Colour-Revolution-We-Have-to-Have>

This is not to overthrow any legitimate government but rather to hold any politician and their cronies/associates accountable, and to enforce the Rule of Law. Without a proper functioning society we will end up under terrorism/dictatorship much as appears to show its ugly head in the USA. Now is the time to act, and merely acting as one is legally required to do, in itself may be already sufficient to thwart and/or prevent any further misuse and abuse of power by anyone. And, this may even result in protecting your own and/or that of your loved ones rights and wellbeing in future times.

We need to return to the organics and legal principles embed in of our federal constitution!

This correspondence is not intended and neither must be perceived to state all issues/details.

Awaiting your response,

G. H. Schorel-Hlavka O.W.B. (Gerrit)
