31 Mr Gerrit Schorel-Hlavka

33 Dear Mr Schorel-Hlavka

34 I refer to your correspondence of 15 February 2021 to the Prime Minister,

35 The Hon Scott Morrison MP concerning the COVID-19 vaccine. Your letter has been referred

36 to the Minister for Health and Aged Care, the Hon Greg Hunt MP, and the Minister has

37 asked me to reply on his behalf.

38 The Australian Government has made a total investment of \$6.3 billion in Australia's

39 COVID-19 health response. This includes over \$3 billion in COVID-19 vaccine purchase and

40 nearly \$2 billion in vaccine rollout requirements such as workforce funding to states and

41 territories, health professional training, vaccine delivery and supporting digital systems.

42 The Therapeutic Goods Administration (TGA) has now approved two COVID-19 vaccines for

43 use in Australia. These vaccines have been proven safe and effective in protecting against

44 severe illness or death associated with COVID-19 infection.

45 As with any medicine approved for use in Australia, the ingredients of approved COVID-19

46 vaccines are published in a Consumer Medicines Information leaflet. Leaflets can be found

47 on the TGA website at: www.tga.gov.au using the search term 'Consumer Medicines

1 Information’.

2 We know Australians are keen to receive a COVID-19 vaccination to protect their loved ones
3 and the wider community. Although Australia now has an approved COVID-19 vaccine that
4 prevents development of severe disease or death, it is too early to tell if vaccinated people
5 can still transmit the COVID-19 virus to others who are vaccinated or not.

6 That is why, at this time, the primary objective for the Government’s COVID-19 vaccine
7 rollout is to protect the health of Australians, rather than protect Australians from
8 transmission.

9 Staged rollout of the free vaccine will commence in February 2021, in line with Australia’s
10 COVID-19 Vaccine National Rollout Strategy (Strategy). The Strategy sets out the groups that
11 have been prioritised to receive the first vaccine doses, ensuring that the most vulnerable
12 Australians are vaccinated first. More information on the Strategy can be found on the
13 Department of Health website at: www.health.gov.au using the search term ‘National
14 Rollout Strategy’.

15 Information on the underlying conditions that place Australians at greater risk can be found
16 on the Department’s website at: www.health.gov.au using the search term ‘advice for
17 people at risk of coronavirus (COVID-19)’. Further information on who will get the COVID-19
18 vaccine and when can be found using the search term ‘who will get the vaccines’.

19 COVID-19 vaccination will not be mandatory in Australia, but it is important that everyone
20 who can get it, does get it, to help keep themselves and others safe. Anyone with questions
21 about the benefits of being vaccinated is encouraged to talk to their doctor or pharmacist.
22 The Government expects to achieve whole-of-population coverage by the end of 2021 and
23 you can monitor relevant announcements about the rollout at: www.health.gov.au.

24 You can also:

- 25 download the official Government ‘Coronavirus Australia’ app in the Apple app store
26 or Google Play
- 27 join the WhatsApp channel on iOS or Android.

28 If you need to speak with someone, the National Coronavirus Helpline is available on
29 1800 020 080. It operates 24 hours a day, seven days a week.

30 Thank you for writing on this matter.

31 Yours sincerely

32 Director

33 Australian Government Department of Health

38 QUOTE

39 We use the best available scientific evidence to assess the risks and benefits of each vaccine. Our
40 evidence requirements are based on international guidelines developed by the European Medicines
41 Agency.

42 Clinical trials are a key part of the scientific evidence that we review during the assessment of a new
43 vaccine. A clinical trial is a scientific study where a promising new medicine is given to a group of
44 people to assess its risks and benefits.

45 **We carefully assess the results of clinical trials and the way in which the trials were conducted.**
46 **We require well-designed trials of a sufficient length with a sufficient number of people who**
47 **represent the people for whom the vaccine is intended. The results must demonstrate that the**
48 **benefits of the vaccine greatly outweigh the risks.**

49 We also require vaccine manufacturers to meet manufacturing quality standards. As a further check,
50 our laboratories assess the quality of every batch of a vaccine before it can be supplied in Australia.

51 **TGA decisions are informed by independent advice**

52 The TGA’s decision of whether to register a vaccine for use in Australia is informed by the advice of
53 the [Advisory Committee on Vaccines \(ACV\)](#).

54 The ACV is an independent committee appointed by the Australian Government Minister for
55 Health. It is composed of members with expertise in science, medicine and public health.

56 The ACV complements our expertise in the TGA, ensuring that our assessments of vaccines are as
57 robust as possible.

58 **The TGA monitors vaccines after they are supplied in Australia**

59 The TGA monitors vaccines for safety after they are supplied in Australia. If you experience an
60 adverse event (side effect) from a vaccine, you should seek assistance from a health professional and
61 [report the adverse event](#) to the TGA.

We receive adverse event reports from consumers, health professionals, the companies who supply vaccines, and state and territory health departments. We publish these reports in the publically available [Database of Adverse Event Notifications \(DAEN\)](#).

Reporting serious adverse events is mandatory for the companies who supply vaccines in Australia. These companies must also develop and implement risk management plans for their vaccines.

END QUOTE

I am not aware “**clinical trials**” were held in Australia for the TGA to be able to make a final approval and understand that the “approval” was for “**EMERGENCY USE ONLY**”.

Dr. David Martin methodically and accurately takes apart the phony story that Moderna and Pfizer are delivering vaccines. He reveals that Moderna admits that their patents say “gene therapy” not “vaccine.” They put a synthetic RNA fragment embedded into a fat carrier, whose only purpose is to lessen the symptoms associated with the S-1 spike protein, not the actual virus. The legal ramifications of this deception are immense.

QUOTE

COVID-19.

Moderna & Pfizer are not vaccines, but are actually "Experimental Gene Therapy Technology".

The 1986 Liability Exclusion under touted Emergency Powers allows these so called vaccine companies to make billions in profit with no liability.

If this was not a vaccine then this liability shield would vanish because there is no clause under the 1986 act allowing medical counter-measure that is gene therapy.

Which means that there are most probably "Governors and Health & Human Services & CDC & others" maintaining the illusion of a "State of Emergency" not because there is a "State of Emergency", they're maintaining it because it maintains the illusion of the liability shield.

Blockbuster Revelations!! It's true! All of our different levels of Federal & State governments have kept us in perpetual "States of Emergency" which is obviously a sham and a ruse for their criminal behavior to continue unimpeded.

END QUOTE

This to me means that any politician, medical doctor, scientist and others who are associated with PM Scott Morrison to pursue this elaborate criminal conduct to pretend something to be a “vaccine” when in fact it is an “**Experimental Gene Therapy Technology**” should be attested and imprisoned for the harm they are inflicting upon the general community and any of them.

When one considers what really is inside of the so called “vaccines” one could rightfully be horrified.

Hundreds Sent to Emergency Room After Getting COVID-19 Vaccines

QUOTE

Over 1,000 people injected with a new COVID-19 vaccine have experienced an adverse event, with hundreds being taken to emergency rooms.

One patient in Michigan on Dec. 16, 2020, became lightheaded and dizzy, and experienced chest tightness and hand tingling. She repeatedly told doctors, “I think I am having a panic attack.” She was sent to the emergency room for evaluation.

1 That's one of 308 reports from patients sent to hospital emergency rooms documented on
2 the Vaccine Adverse Event Reporting System (VAERS). That represents 0.0064 percent of the total
3 vaccinations done, 4.8 million, as of Jan. 5.

4 In other cases, patients experienced nausea, tremors, stabbing pain, and wheezing.

5 In one report, a 33-year-old male in Georgia reported receiving Pfizer's COVID-19 vaccine on Dec. 17,
6 2020.

7 "I initially had to sit down for about 15 min and felt my mouth dry, my tongue was kind of tingling, not
8 swollen. I was checked for anaphylactic shock. I felt like an adrenaline shock, and felt my heart racing, my
9 [blood pressure] was high—stayed in the ER for an hour for observation. I felt the same kind of sensation
10 when I had COVID in July. This morning, had chills early in the morning around 1 a.m. but it is all gone
11 now," he wrote.

12 VAERS was established in 1990 to serve as an early warning system to detect possible safety problems in
13 U.S.-licensed vaccines. It's managed by the Centers for Disease Control and Prevention (CDC) and the U.S.
14 Food and Drug Administration (FDA). Anyone can report an adverse event to the system.

15 "VAERS is not designed to determine if a vaccine caused a health problem, but is especially useful for
16 detecting unusual or unexpected patterns of adverse event reporting that might indicate a possible safety
17 problem with a vaccine. This way, VAERS can provide CDC and FDA with valuable information that
18 additional work and evaluation is necessary to further assess a possible safety concern," the system's website
19 states.

20 Issues with the newly approved COVID-19 vaccines began almost immediately after they started being
21 administered. A healthcare worker at Bartlett Regional Hospital in Alaska suffered a suspected severe
22 allergic reaction, or anaphylaxis, after receiving Pfizer's vaccine. She was taken to the emergency room and
23 spent several nights there before being discharged.

24 Thousands of people self-reported being unable to work or perform daily activities, or required care from a
25 health care professional, after getting one of the doses from the first tranche.

26 The FDA's Adverse Event Reporting System hasn't been updated to include data for the last quarter of 2020
27 yet.

15 As such, not only is the “**Experimental Pfizer mRNA COVID Injections**” an
 16 “**EXPERIMENT**” but also it seems to contain particles that caused added severe reactions.
 17 Would anyone go to an “**Emergency**” Department of a Hospital to merely check once blood
 18 pressure, or if ones hair need to have a cut? The “Triage nurse” would probably sent the
 19 person to a general practitioner or to a hairdresser whatever may be applicable. Likewise, you
 20 do not sent a person for some “**Experimental Pfizer mRNA COVID Injections**” to some
 21 pharmacy where the person may be so to say the girl Friday who wouldn’t have a clue what to
 22 do if something were to go wrong.

23 How many citizens actually know what they were injected with being it from Pfizer,
 24 Moderna, **AstraZeneca**, or whatever pharmaceutical company? Indeed, when did they explain
 25 to each citizen that those companies cannot be sued because they will not accept any legal
 26 liability of the citizen is to suffer severe adverse reaction or even death?

30 **53 Dead in Gibraltar in 10 Days After Experimental Pfizer mRNA COVID Injections Started**
 31 **53 DEAD IN GIBRALTAR IN TEN DAYS FOLLOWING COVID VACCINE.**

33 One can never justify any claim that citizens are “voluntarily” getting vaccinated when they
 34 are advised that if they are not they may lose their job, they may not be allowed to travel on
 35 public transport, they may not be allowed to fly with a plane, etc.

36 Each time this kind of “**Experimental Pfizer mRNA COVID Injections**” are administered by
 37 some alleged “health official” without having done a personal assessment of each particular
 38 citizen then I view the so called “health official” and those who authorize this conduct all
 39 must be held legally accountable for any adverse consequences including any deaths.

51 Therefore, with the studies still to be completed in **2022, 2023** it would be beyond the TGA to
 52 provide for “FINAL” approval before that date. Indeed after the completion of such studies then
 53 the TGA would still require appropriate time to consider all the relevant details.

54 As such, any TGA approval can be allowed regarding an “**EMERGENCY USE ONLY**”.

11
12 Considering the person injecting appeared to be a doctor, nevertheless this might have been
13 unlawful if it was a *Pfizer* vaccination without prior approval of a specialist in “**mRNA**” issues.
14 While you may blatantly disregard proper medical procedures nevertheless the danger to others
15 cannot be ignored.

16
17 My wife is constantly required to consult specialist due to her heart Failure issues which charges
18 a fortune for their services whereas if any ordinary medical doctor could provide the same
19 service it would save us a lot of monies. However, no doubt the Department of health and other
20 authorities wouldn’t allow a medical doctor not qualified in those special Heart Failure issues to
21 perform that kind of service. Likewise any ordinary medical doctor in my view cannot
22 administer a “**mRNA**” vaccine without the consultation and approval of a specialist in
23 “**mRNA**”m in particular also where this is a “**medical treatment**” and many of the elderly in
24 nursing homes could be essentially “**EXECUTED**” by this kind of vaccination without a
25 medical specialist having first appropriately assessed the particular nursing home resident (or for
26 that any other person) and then any resulting harm that may end up with the death of the person
27 may be considered **manslaughter** if not **murder**.

28
29 As for “**The Australian Government has made a total investment of \$6.3 billion in Australia’s**

10 **GENOCIDE?** As I suspected, an estimated 115,000 Australian seniors could die from the clash of

14 individuals over 70." Neither the CDC, FDA or the Australian TGA could even for emergency
15 approve this so called vaccine for use for those "individuals with comorbidities or vulnerabilities" in
16 those circumstances. It is simply a sickening game of MASS MURDER. "Is it possible that a

I am too well aware from conducting for some 37 years a special lifeline service under the motto **MAY JUSTICE ALWAYS PREVAIL®** that ramped ignorance by relevant authorities is ongoing, my correspondence to "Victoria's Human Rights Commissioner Kristen Hilton-Suppl 1" may just underline that "**URGENT**" action is required.

The latter is also regarding my complaint to the **Victorian Police** as to the misuse and abuse of the TGA limited approval.

While the Department may have elected to refer to the 15 February 2021 with some "generic" letter and totally disregard to respond to the issues I raised, I urge you to ensure that I am provided with an appropriate and detailed set out in response to the above mentions writings. After all people's lives are at risk.

One of the major questions that required to be appropriate addressed is; If the TGA provided an approval(s) that allows unlimited usage of the various vaccines or that the approval(s) are limited to "**EMERGENCY USE ONLY**" and for "**CLINICAL TRIALS**" and not otherwise?

Again, I refer to the content of my listed writings above as well as those further published at my blog <https://www.scribd.com/inspectorrrikati>.

END QUOTE

Do understand that while you for political purposes may persist in having individuals vaccinated in the end when people are so to say dropping death like flies then this blatant ignorance to others safety and wellbeing may come to haunt you and all those who were assisting you in what may likely be **GENOCIDE**.

We need to return to the organics and legal principles embed in of our federal constitution!

This correspondence is not intended and neither must be perceived to state all issues/details.

Awaiting your response,  **G. H. Schorel-Hlavka O.W.B.** (Gerrit)
