20210604-Mr G. H. Schorel-Hlavka O.W.B. to Alan Joyce CEO QANTAS & Ors

Alan,

Hypothetically, if I were to claim I run a major international airliner with millions of passengers wouldn't you then ask: Where is the evidence? Well if I then create a business logo and aeroplanes on a computer is that any prove of reality? Well, we now have that countries claim more than 3.5million people died from SARS-CoV-2 but when asking for a single "isolation" of the alleged virus then despite all those dead bodies they have been unable to prove this.

There is no doubt that people are dying but from what is the real issue.

For sure, millions of people are travelling but instead of an alleged mysterious airline company it might be they are travelling by other modes of transport, such as shipping.

Likewise, people are dying in huge numbers but what if what PM Scott Morrison claims to be an "invisible enemy" we were to have a "visible enemy" just that they may not be looking for them.

I honestly question if you are really a competent CEO, as while i may not have the experiences in an airline i certainly would have held that as a CEO the obligation is also towards the shareholders to ensure the business is competently conducted and towards the airline staff that

1 they are not recklessly have their health and wellbeing, including their financial wellbeing,
2 needlessly placed in harms way.

3
4 Regrettably I do not just view you have acted grossly inco0mptent but most business have been
5 conducted with a sheer ignorance to what is factual.

6
7 As a CONSTITUTIONALIST I hold the legal principles embedded in the nCommonwealth of
8 Australia Constitution Act 1900 (UK) very important, however, it appears that the so called
9 political leaders of State, Territory and Federal couldn't give a hood about it.

23
24 Yet we now find that some health official is dictating masks, social distancing, lockdowns and
25 curfews for alleged "disease" that it has actually no legal authority to enforce as it is a federal
26 issue (quarantine) and yet again grossly mismanaged, in this case by South Australia so called
27 "Hotel quarantine" system. Now Victorians are to suffer yet another round of financial hardship
28 also where there are all kinds of ridiculous rules of which in my view **NONE** were based upon
29 proper scientific evidence.

30
31 **Where indeed was/is the scientific evidence Brett Sutton relied upon to dictate**
32 **compulsory masks wearing?**

33
34 **Where was/is the scientific evidence for social distancing justification?**

43 **Let them prove they actually "isolated" the virus they claim to exist!**

44
45 Merely because some person may be a health official doesn't mean this person has the
46 knowledge and/or competence to appropriately deal with a matter. We have the overall federal
47 legislation *Biosecurity Act 2015* (Cth) and the Minister cannot delegate his powers. Let indeed
48 follow the "science" but then actual "science" not pretended **imaginary** science!

51 **The Final Refutal Of Virology**

52
53 Why not watch this video and then as a responsible person demand that there is evidence that the
54 so called SARS-CoV-2 virus can be proven to exist. Surely, one of the more than 3.5 million
55 alleged dead bodies they claim died from COVID-19 could at least produce one isolated "virus"?

1 Ifr they cannot manage this with more then 3.5 million alleged deaths from COVID-19 then do
2 you not ask questions what on earth is going on?

3
4 Qantas as other airlines have been financially crippled and for what? Where was your
5 responsibility as a CEO to ensure that you were not dragged along with a bogus claim?
6

7 Are you so grossly incompetent that you cannot even ask the very obvious?
8

9 Already way back on 13-4-2020 I refer to the issue of exosomes.

25 Kristen,

26 I am a person who not merely makes some claim and tell people just trust me, I am
27 a person who supports as to what I am stating with what the Framers of the Constitution
28 were recorded to have stated. Hence quoting them, even limited, does means a huge
29 amount of work to set it out. Then again this is the better way as you then can for yourself
30 make an informed decision as can my readers when a copy of this correspondence is
31 published at my blog.
32

33 I cover in this correspondence for example subjects like
34

- 35 • Mr Julian Assange
- 36
- 37 • Citizenship
- 38
- 39 • Constitutional embedded rights
- 40
- 41 • Etc.
42

43 I includes part of my WRITTEN SUBMISSIONS (ADDRES TO THE COURT) of
44 successful appeals regarding the CITIZENSHIP ISSUE also.
45

46 I various images of video's which appears to indicate that the reported COVID-19 cases
47 have been manipulated considerably all around the world, due to the CDC and WHO
48 requiring a reference to COVID-19 even is it is merely "**ASSUMED**" that COVID-19 may
49 be relevant, regardless if it had absolutely nothing to do with the cause of death. As such
50 the death certificates are misused to create a perception of astronomical proportion of
51 deaths due to COVID-19 even so not being so.
52

2 **Montana physician Dr. Annie Bukacek discusses how COVID 19 death certificates are**
3 **being manipulated**

4 There is below also reference with video link that “**Exosomes**” is the same as “COVID-19”
5 and as such it already existed long before it became a major health scare. “**Exosomes**” as I
6 understand it is a normal part of the body function in certain conditions. Again, I have
7 below included images from the video’s and you can always check out those video’s
8 yourself.
9

10 What this may mean is that this “LOCKDOWN” is based upon “MISCONCEPTIONS”,
11 MISINFORMATION” “DISINFORMATION” etc.

12
13 Essentially to me it is like the “**Salem witch hunt**” that went on in the USA where many
14 innocent people died because of this.
15

16 <https://youtu.be/Ppy7ZU0oDWg>

17 **NYC 10 minute video. New York intensive care Doctor confirms 5g symptoms and NOT covid19!**

18 This video is about a NYC doctor who spend reportedly some 20 years in ICU, etc, and
19 makes clear that many victims show absurd abnormalities noting to do with a virus, as if
20 they were so to say just coming down from high altitude and that using ventilators on them
21 could actually accelerate their deaths because it is the wrong thing to use in their
22 circumstances.
23

24 It might be absurd to consider but an open minded person should as to why so to say
25 “**ground zero**” of large scale claimed COVID-19 cases are within range of 5G towers.
26 And the harm such towers can cause to the human health system. There are numerous
27 video’s on the internet explaining this all in details but safe to say any “open minded”
28 person should not ignore this possible reference in particular where cruise ships involved
29 reportedly all were using 5G communication systems.
30

31 If indeed the “LOCKDOWN” (State of emergency) is based upon
32 “MISCONCEPTIONS”, MISINFORMATION” “DISINFORMATION” etc, then we
33 have a major problem at our hands. It may be engineered by politicians to push their own
34 political issues, such as extending their powers in violation of the constitution, get rid of
35 using cash transactions, etc.

36 **END QUOTE13-4-2020 CORRESPONDENCE**

37
38 **Many videos and articles indicating that medical and other experts are not even able to**
39 **agree what COVID-19 is about. The fearmongering by politicians causing stress levels to**
40 **increase and the COVIDSafe app deception.**

45 **QUOTE5-5-2020 CORRESPONDENCE**

1 Now we have reportedly PM Scott Morrison pledging \$35 million towards research. What
 2 research? First of all it is not for the PM to decide taxpayers monies how it is spend. That is
 3 for the Parliament to determine. Secondly, countries are all having their own kind of system
 4 (if you can call it that) about how to determine when a person has COVID-19. As such,
 5 **THERE IS NO CONSENSUS HOW TO RECORD WHO HAS WHAT.** Neither any
 6 consensus as to how to use a ventilator, etc.

7 If we go back to "The Anatomy of Covid-19" then perhaps considering that what is called
 8 COVID-19 may actually be "Exosomes" then surely it is important that it is sorted out what it
 9 really is. Also if the flu vaccination contributes to the death toll and in which manner.

12 The COVID-19 symptom leaving doctors baffled

13 **QUOTE**

14 British Journal of Dermatology Some COVID-19 patients are developing a rash. Doctors say they are puzzled by a wide variety of
 15 rashes in patients suffering from COVID-19.

16 Five separate types of rashes have so far been identified, including Covid toe, with the rashes more likely to appear in young people
 17 and last several days.

18 While Covid toe has been the most widely publicised, a study by Spanish doctors has found the most common is maculopapules,
 19 which are small, flat and raised red bumps that usually appear on the torso.

20 "It is strange to see several different rashes - and some of them are quite specific," lead researcher Dr Ignacio Garcia-Doval told the
 21 BBC.

22 "It usually appears later on, after the respiratory manifestation of the disease - so it's not good for diagnosing patients," he added.

23 **END QUOTE**

24 Well I have this kind of rash for at least decades, so now COVID-19 might have existed for
 25 that long? This just underlines that we lack consensus what it is really about. Throwing \$350
 26 million to this hardly is sensible, so neither I view is the entire LOCKDOWN.

27
 28 What the above set out indicates is that (if you watched also each video I refer to) that experts
 29 are having different views about what COVID-19 really is and that a vaccine may not work
 30 at all. Didn't they fail in the past against so-called viruses in that regard? It seem to me like
 31 the WMD issue we are deluged by Government advertising to pretend there is a "VIRUS" but
 32 after all the suffering we may just in the end find \$4 Billion a weekly loss of economical
 33 earnings and people having died because we lacked proper "leadership" who instead of
 34 parroting whatever they actually were hands on to make sure that whatever the disease might
 35 be it first was to be established its true nature and also how to best combat it without huge
 36 personal and economical loss to society. LOCKDOWNS are not addressing wither of them
 37 but rather may actually cause more problems to the very "vulnerable" persons that are
 38 supposed to be looked after, but aren't!

39 **END QUOTE5-5-2020 CORRESPONDENCE**

40
 41 OK, we seem to have billions of monies (from taxpayers that is) to waste on so called vaccines"
 42 that are utterly useless as you cannot use a "vaccine" against something that doesn't exist.
 43 You as the CEO in my view ought to have organised your own investigation as to establish if the
 44 financial loss inflicted upon QANTAS really was for health issues or merely for dictatorship.
 45 I consider this was a grave lack of judgment by you to not have this investigated appropriately as
 46 the cost of such investigation, I view would have been next to nothing compared to the financial
 47 harm now resulting to the shareholders, the employees and others.

48
 49 And, you then pursue a "vaccination passport" that I view even a child might realise is nonsense.

50
 51 As a QUALITY CONTROL Officer working in a factory I used to reject a lot of items. When
 52 then I was promoted to manage this factory I immediately was hands on and immediately
 53 discovered where errors were. Not with the workers on the machinery but because the toolroom

1 had, over the years, provided gauges which some were correct and others were incorrect. As
 2 such, a machine setter would have faulty work output pending which gauge he was using.
 3 I was able to turn the factory from losses into profits because I did what I view anyone in
 4 management should do and that is being hands on.

5
 6 As such, if you had bothered to research what was going on, as I did (My blog at Scribd has
 7 ample of articles) then you would have known that Dr Andrew Kaufman already more than a
 8 year ago questioned the naming of EXOSOMES as a virus.

14 QUOTE

15 Lifeline Chairman John Brogden says the support organisation
 16 is "regularly seeing ... around and over 3000 calls a day"
 17 during the coronavirus pandemic as the amount of people
 18 reaching out for help continues to steadily rise. He said the
 19 organisation used to get about "2500 calls a day," however
 20 "since the bushfires last year we've seen our calls increase
 21 to 2900 calls a day". "We've seen our calls get as high as
 22 3200 a day during the coronavirus". "That's enormous for us,"
 23 he told Sky News host Paul Murray. Mr Brogden said annually,
 24 those figures represent the receiving of around 1.1 millions
 25 calls a year. Mr Brogden said "physical distancing" may be
 26 good for our physical health however "for some people it is
 27 really bad for their mental health". He said Australians
 28 "have really been knocked about" physically and mentally by
 29 the virus.

30 END QUOTE

31
 32 I would rather hold that it was **not because of the virus** but because of the fear mongering that is
 33 perpetrated upon the community. After all people who are not affected by any disease of the so
 34 called COVID-19 could therefore not suffer because of COVID-19 but are induced to suffer by
 35 the ongoing fear mongering perpetrated upon them.

29 I am neither a scientist or a trained in medical issues but just using “common sense” alone
30 indicated to me from onset that it was a lot of B.S. that the politicians were using. As Llke with
31 the 2003 Iraq war where the so called Intelligence Services were feeding the politicians with
32 what they held they wanted to hear, rather than real competent intelligence. Just that then many
33 Iraqi’s needlessly died and so also Australian soldiers being harmed and even killed. Now we
34 have a similar repeat where Australians themselves are targeted.

35
36 And the Prime Minister and his cohort are pushing the so called “vaccine” (Not a vaccine when
37 it comes to Pfiser/Moderna as it is a “medical treatment”)

38 And you as a CEO cannot even manage to have your own investigation to make sure that the
39 shareholders, staff and passengers are not unduly harmed?

40
41 Surely, you could be expected to act more competently, and so all other business leaders that are
42 so to say paid a small fortune?

46 **Employers May Be Held Liable for ‘Any Adverse Reaction’ if They Mandate COVID Vaccines**

47 **New OSHA guidance holds employers liable for adverse reactions if they require employees be vaccinated for**
48 **COVID as a condition of employment, which could negatively impact the employer’s safety rating.**

49
50 Likewise, in my view, businesses who demand anyone to be vaccinated otherwise services are
51 denied may likewise face legal liability where such vaccination forced upon a person has adverse
52 reactions. After all, considering also the **Nuremberg Code** and that the TGA only approved for
53 “clinical trials” then I view any businesses seeking to force Anyone to inflict self-harm by some

1 liability, liability, etc, when things goes wrong with the unapproved purported “vaccination”
2 must accept legal responsibility

3
4 Below I will set out some issues, albeit so to say ;merely the tip of an iceberg.

5
6 In my article on 10 July 2020 I pointed out that masks manufactured in the slums in Mumbai
7 were dumped on the ground and warned against the dust then being on the mask. Well, if
8 QANTAS is one of those companies requiring people to wear masks and they happen to be
9 contaminated with such dust then this may explain people falling ill not from COVID-19 but
10 from “BLACK FUNGUS”. And I understand hundreds if not thousands of people in India lost
11 their lives after the “black fungus” having infected them.

12 You might just have the view that ‘BLACK FUNGUS’ stands out as to the way people skin
13 seem to be turning black, but before you make any hasty conclusion do not overlook that there
14 are masks that are reportedly contaminated with graphene, asbestos, little black worms, bacteria,
15 spores, etc.

16
17 <https://forbiddenknowledge.net/urgent-doctor-confirms-parasitic-worms-on-facemasks/>

18 The blue mask (and others) used around the world (and others) have been found to contain
19 parasites to which I referred already last year.

20 It means that patients and former patients could sue medical clinic, employers, etc, if they found
21 to have been harmed.

22 **The video may show "evidence" that indeed there are worms in the masks, and it is being**
23 **reported all over the world! And, that I view where it involved different brands of mask**
24 **then I view this is not some isolated incident where somehow masks were contaminated but**
25 **rather it is a global issue, as with the alleged SARS-CoV-2 “virus”. Who then is behind this**
26 **global contaminations? And, let’s not ignore that Chinese manufacturers already a year**
27 **ago made clear they would tamper with PPE and other supplies. Also, that about a year**
28 **ago already in Europe PPE was found to be contaminated!**

29 **I urge every business for their own sake, your family, patients/customers and staff not to**
30 **ignore this but watch the video and take appropriate action, including warning**
31 **patients/customers and former patients/customers.**

32 **Those little black worms can be seen moving around in the facemasks and one has to**
33 **wonder if the same might be going on with nappies? If indeed nappies are also infected**
34 **then this means that those worms can enter the children backside or the girls vagina and**
35 **cause serious problems. Indeed the same when females are using sanitarian pads/tampons,**
36 **etc.**

37
38 As I understand it, currently there is a major additional disaster in India:

39

45
46 What is the deadly ‘black fungus’ seen in Covid patients in India?

47 **Usually very rare, mucormycosis has a high mortality rate and is**
48 **difficult to treat**

1 This might be an issue related to my exposure as to how I understand mask are being dumped
2 onto the ground in Mumbai, as I wrote about way back on 10-7-2020 (Albeit not then to you):
3

4 **If indeed the current political conduct amount to TORTURE upon citizens in particular**
5 **also upon the “vulnerable persons” then one has to ask: Why is the medical profession not**
6 **taking a stand to protect the rights of their patients?**

20 contaminated with the dust are then by a health serve person used on their face then this can
21 have horrendous consequences. The health service provider can become ill merely by using
22 such contaminated mask on his/her face! Further, could infect the very patients or senior

Then Fauci claimed one had to wear a mask and then 2 or more mask and then no mask at all. He is all over the place, where in 2005, I understand, it was a coauthor of a book about the 1919 pandemic that it were the wearing of masks that really caused the massive deaths then.

The Biggest Flip-Flop Ever — Who's Going to Jail?

QUOTE

STORY AT-A-GLANCE

- Dr. Anthony Fauci, director of the National Institute for Allergy and Infectious Diseases (NIAID), has defended the natural-origin theory for SARS-CoV-2 since the beginning of the COVID-19 pandemic
- In his biggest about-face to date, Fauci is now saying he’s “not convinced” the virus had a natural origin after all, and that we must continue to investigate “what went on in China until we find out, to the best of our ability, what happened”
- Considering Fauci’s opinion has been used by mainstream media and fact checkers to censor any and all other experts, this very public 180 is no doubt causing embarrassment among mainstream reporters
- Fauci is now also denying ever having funded gain-of-function research, even though there’s irrefutable evidence that he did. It seems he’s trying to redefine “gain-of-function,” such that none of the research he paid for will fall under that definition
- National Institutes of Health director Dr. Francis Collins is backing Fauci’s denials in what appears to be a preemptive attempt to distance the NIAID/NIH from future blame, should the lab leak theory be determined to have caused the COVID-19 pandemic

The same flip-flop with the PCR testing that I understand is to be conducted at 17 cycles but the FDA (USA) recommended 45 cycles and the CDC (USA) recommended 40 cycles. Well that was during the reign of President Donald J Trump. To inflate the “cases” by about 95% “false positives”, whereas now with Joe Biden they drastically reduced it to 28 cycles to make it look like Joe Biden somehow does a better job, albeit even VAERS reported cases are now claimed to only be deemed relevant to exclude certain reports where a person did not end up in hospital and/or died.

How the CDC Is Manipulating Data to Prop-up “Vaccine Effectiveness”

New policies will artificially deflate “breakthrough infections” in the vaccinated, while the old rules continue to inflate case numbers in the unvaccinated.

- 19 • This abuse of testing via the use of too high PCR cycles has led to the establishment of a “CASEdemic,”
20 instead of a true pandemic.
- 21 • Authorities justify the need for pandemic responses based on the reporting of increasing numbers of

19 **Introduction**

20 Severe acute respiratory syndrome (SARS) emerged in Guangdong, People's Republic of China, in late 2002, and spread to other countries in Asia and to Canada in the ensuing months [1]–[3]. Infection control efforts brought the infection under control by mid-2003 [4]. More than 8000 cases, including almost 800 deaths, were reported during the outbreak period [4]. Increasing age and comorbidity were risk factors for severe disease and death [5], [6], [7]. Since 2003, only sporadic cases have been reported; however, the possibility that SARS outbreaks could reemerge naturally or be deliberately released is a public health concern.

32
33 QUOTE

34 An early concern for application of a SARS-CoV vaccine was the experience with other coronavirus infections which induced enhanced disease and immunopathology in animals when challenged with infectious virus [31], a concern reinforced by the report that animals given an alum adjuvanted SARS vaccine and subsequently challenged with SARS-CoV exhibited an immunopathologic lung reaction reminiscent of that described for respiratory syncytial virus (RSV) **in infants** and in animal models given RSV vaccine and challenged **naturally (infants)** or artificially (animals) with RSV [32], [33]. We and others described a similar immunopathologic reaction in mice vaccinated with a SARS-CoV vaccine and subsequently challenged with SARS-CoV [18], [20], [21], [28]. It has been proposed that the nucleocapsid protein of SARS-CoV is the antigen to which the immunopathologic reaction is directed [18], [21]. **Thus, concern for proceeding to humans with candidate SARS-CoV vaccines emerged from these various observations.**

Therapeutic Goods Administration Adj. Professor John Skerritt's interview on ABC 7:30 on 17 February 2021

QUOTE

LEIGH SALES:

Will people be allowed any choice in which vaccine they opt for?

JOHN SKERRITT:

The Government's policy is that each centre will have one vaccine, and there'll be different groups going to different centres depending on, obviously, whether you're an aged care resident or you're going to go to primary care in Category 1B of the Phase 1B of a rollout. And so, no, they won't have a choice, but frankly, both the Pfizer and AstraZeneca vaccines have been excellent vaccines from our review of them.

END QUOTE

Yes, you got the head of the TGA announcing what "Government policy is" rather than what safety measures there are in place by the TGA to ensure that the so to say "safety valve" is operating in case something goes horribly wrong.

Therapeutic Goods Administration Adj. Professor John Skerritt's interview on ABC 7:30 on 17 February 2021

QUOTE

LEIGH SALES:

Some churches have told parishioners to ask for the Pfizer jab, not the AstraZeneca one, because the AstraZeneca one reportedly uses aborted fetuses. What's your view on that and would religious objection be grounds for an exemption to get the vaccine you wanted?

JOHN SKERRITT:

When the vaccine was developed, quite a range of vaccines were produced in embryonic kidney cells, and these cells came originally from - **and we don't know** the personal situation - from a termination that was done, we think, in the Netherlands in the early 1970s. So a very long time ago. And those cells are many generations old now. What we do know is that even at the highest levels from the Vatican down, they've said that the source of this vaccine is not a reason not to be vaccinated. So, churches have come out quite strongly, emphasising the importance of vaccination.

END QUOTE

To me the answer "When the vaccine was developed, quite a range of vaccines were produced in embryonic kidney cells, **and these cells came originally from - and we don't know the personal situation** - from a termination that was done, we think, in the Netherlands in the early 1970s." is totally unacceptable. It appears to me he deliberately avoided to where it was from ("**and these cells came originally from - and we don't know the personal situation -**") as I view as head of the TGA it should be his business to know! If he doesn't then replace him with someone who knows his job!

TGA boss John Skerritt himself during an ABC program on 17 February 2021 with Leigh Sales seemed to admit he doesn't know precisely what is in a so called "vaccine" and that he is following "government policy". As such, forget about "real "science" such as "medical science", as "political science" is now what dictates how "cases" are claimed to be. And, so "lockdowns" on "political science".

Lockdowns Don't Reduce Mortality, Cause 'Economic Harakiri' – Swedish Professor

9 QUOTE

10 (Natural News) Today we bring you a shocking true story about covid-19 vaccines, the government of Connecticut, and an open admission that vaccines contain dangerous, even deadly substances (spike proteins) that are documented and known to cause vascular damage to human beings.

11 It's all admitted right in the open, in these Connecticut government documents shown below, which admit these vaccines can be fatal. The original documents used in this research may be found at the following links: (all PDF docs)

14 Since Connecticut may remove these documents in order to hide the truth, we are also mirroring these documents at NaturalNews.com servers:

17 **Connecticut admits covid vaccines contain spike proteins, then claims they are harmless even while the Salk Institute confirms they can be deadly**

18 In these documents, you will find astonishing admissions from the Connecticut government. For starters, review the graphic below which shows the Connecticut government falsely claiming the vaccine spike protein is “a harmless protein,” even while [the Salk Institute’s own published research reveals, “the protein damages cells.”](#)

19 The research, published in the journal *Circulation Research*, concludes, “...we show that spike protein alone can damage vascular endothelial cells by downregulating ACE2 and consequently inhibiting mitochondrial function.”

23 **The FDA cover-up that led to the approval of the Pfizer vaccine**

24 QUOTE

25 [The document](#), posted on the FDA website, is titled, “*Vaccines and Related Biological Products; Advisory Committee Meeting; FDA Briefing Document Pfizer-BioNTech COVID-19 Vaccine.*” [1]

26 It is dated December 10, 2020. The date tells us that all the information in the document is taken from the Pfizer clinical trial, based on which the FDA authorized the vaccine for public use.

27 A key quote is buried on page 42: “Among 3410 total cases of suspected but unconfirmed COVID-19 in the overall study population, 1594 occurred in the vaccine group vs. 1816 in the placebo group [who received a saltwater shot].”

28 Those shocking numbers have never seen the light of day in news media.

29 The comparative numbers reveal that the vaccine was not effective at preventing COVID-19. It was certainly not 50% more effective than no vaccine at all—the standard for FDA Emergency Use Authorization.

30 To make all this clear, I need to back up and explain the theory of the vaccine clinical trial.

26 **The COVID vaccine; more genetic thunder**

27 QUOTE

28 The BBC article describes a criminally fraudulent experiment carried out by researcher He Jianku, in China,
29 several years ago. After in utero genetic treatment, twin baby girls were born with the instruction to create a
30 specific “CCR5 protein.”

31 Does that sound familiar? The current COVID RNA vaccines are supposed to force cells of the body to
32 produce a specific spike protein.

33 But in the Chinese baby experiment, something went very wrong. The baby girls produced a variety of
34 proteins.

35 BBC: “We’ve never seen these CCR5 proteins before and we don’t know their function in the context of a
36 human being,” says [Krishanu] Saha [“a bioengineer at University of Wisconsin-Madison”]...”

37 Boom. Thunder.

38 Is the COVID vaccine is only forcing the production of the one intended spike protein? NO large-scale study
39 of vaccinated people has been done to find out. It’s bad enough that the COVID shot is supposed to result in
40 the spike protein. But what about unintended proteins, whose effects are entirely unknown?

41 Researcher Saha comments on a different type of genetic experiment, designed to edit the genes of the
42 recipient—without passing that alteration on to the next generation.

43 “So let’s say we are injecting a genome editor into the brain to target neurons in the hippocampus,” says
44 Saha. “How do we make sure that those genome editors do not travel into the reproductive organs and end up
45 hitting a sperm or egg? Then that individual could potentially pass the edit on to their children.”

46 The COVID RNA injections are called vaccines, in order to conceal the fact that they are global genetic
47 experiments. That’s what’s going on.

48 The huge mounting numbers (and variety) of injuries and deaths publicly reported are a signal of a
49 catastrophe. Whether you choose to believe this is intentional, accidental, or both, the picture is clear.

50 The GENETIC EXPERIMENT currently launched against the human population is not what we are being
51 told it is.

52 We’re GMO crops, GMO mosquitos; we’re the GMO cattle and rabbits; we’re the twin baby GMO girls in
53 China.

1 In October 2019 I rushed my 88 year old wife to Austin Hospital, and well she ended up in ICU
2 and was in the hospital for 10 days, due to HEART FAILURE and other comorbidities issues.
3 Initially she had some outpatient visits, but due to the absurd policy by Austin Health that one
4 must wear a mask and shield despite that both my wife and I are exempted due to medical
5 condition my wife since had no further in-house treatment in Austin Hospital.

6 When on Wednesday 2 June 2021 emails bloodpressure measurement charts showing up to 120
7 pulse, a teleconference with Dr Lu was immediately that day provided. I understand that Dr Lu
8 himself desires to see my wife in person, however, due to the mask/shield issues this is neither
9 possible, besides yet another crazy lockdown. My own medical referral from August 2020 is
10 ongoing postponed by Austin Health. This is the in my view gross incompetence of Austin
11 Health management to act appropriately instead of going along with “government policies”
12 which are not in my view based on “medical science” principles.

21 Mind you as my writings also explain that jabbing the elderly (with flu vaccination, etc,) is rather
